East Piers Started On Bridge

Place Derricks For Steel Moving

Work was under way today on the building of land piers for the Kingston-Rhinecliff Bridge on the east side of the Hudson.

The Merritt-Chapmann & Scott Corp., of New York, substructure contractor, began moving equipment and materials there earlier in the week and much was moved by barge yesterday, Jess Comer, project manager said today.

WORK ON the super-structure this week was limited largely to erection of a derrick at pier-top level for the hoisting and placing of steel.

All steel shipped to the north yard of the West Shore railroad has been moved to location, including the second two heavy girders. They are expected to be placed next week. The Harris Structural Steel Co., of New York, is contractor for the super-structure.

FOOTINGS for the nine east-side piers are all constructed, and work was resumed today on Pier 23, the first to be built on the other side. Pouring of concrete is due to start there next week.

Comer said all sub-structure work on the other side of the river will be finished in "three and a half to four months."

WORK IS completed on 12 west-side land piers and that on the remaining pier will be fin-

Forecast Fair, But It May Rain

Weather for tomorrow's parade of the Hudson Valley Volunteer Firemen's Association here, based on advanced "eastern New York" predictions will be fair, but with "chances of widely scattered thunder showers."

Nothing was indicted as to time of the showers. Those here, to date, this year have been in the late afternoon or early evening. If "widely scattered," they might not hit the area.

A warm spell, which followed cooler and damper days of the month, brought a high temperature here yesterday of 89 at 4:45 p. m. It was headed toward that again today, or possibly the 90's with a 10 a. m. temperature of 84 degrees.

Huntington Sale Contract Signed

A contract to sell The Huntington, apartment-hotel at 23 Pearl street, has been entered into between the present owner, Ulster Associates, Inc., and a group of prospective purchasers known as The Feldo Corporation of Ellenville, it was learned today.

Title closing is expected early next month.

WHEN THE transaction is completed, the 40-room hotel will have changed hands twice within six months. Ulster Associates purchased the hotel from Sidney Treinkman on January 7. Christopher D. Morris, whose father, the late Claremont Robert Morris was one-time owner of the building himself, arranged both transactions. On the January transaction, Morris was representing Walter Donnaruma, and in the current negotiations he is a parner in the real estate firm of Morris & Citroen.

Attorney Harry Gold represents the sellers in the present negotiations, and S. James Matthews represents the buyers.

PRINCIPALS of Ulster Associates, Inc., as listed on the earlier transaction include Lawrence Jacobs, president, and Meyer Levy, treasurer. Principals of the new Feldo Corporation were not revealed.

Will Paint Port Ewen Standpipe

The Port Ewen water district has contracted with C. J. Lawrence, Inc., of Waltham, Mass., to paint the interior and exterior of the water standpipe on 9W, south of Port Ewen, starting Monday, June 20, it was announced today by Edward R. Eckert, supervisor of the Town of Esopus.

It is the first time since 1938, Mr. Eckert said, that the 400,000 gallon tank will be completely dewatered and inside maintenance work carried on.

THE PORT EWEN water district, he said will receive its supply directly from the two wells located on Clay road in Port Ewen, and Superintendent Harry Newton will supervise the wells which will be in operation 24 hours a day.

It is expected that painting and maintenance on the standpipe will be completed in less than 10 days, Mr. Eckert reported, and the work will be under the supervision of Edward J. McCaffery of Kingston, water district consulting engineer.

No City Buses During Parade

City bus service will continue as long as possible before tomorrow's parade of the Hudson Valley Firemen's Association, Thomas J. Gadd, general manager of the Kingston City Transportation Corp., said today.

All bus service will be stopped, however, he said, while the parade is in progress and will be resumed as soon as possible as the parade ends.

Buses will be in operation "as long as we can go" before the start of the parade at 2 p. m., he said.

Convention Advises More Effort on CD, Education On Space and Oil Heaters

Like a cascading hydrant the valves of welcome of the City of Kingston were opened wide today on the eve of the largest parade in the city's history for the 66th annual Hudson Valley Volunteer Firemen's Association as business sessions closed at the Elks Club and visiting firemen prepared for fun and frolic, and Saturdays giant parade at 2 p. m.

Election of officers, a report on firemanic laws affecting volunteers, a plea for a greater concerted effort in civil defense and convention resolutions were cleared from the agenda in the closing business sessions.

WILLIAM ATKISS of Clinton Heights was elected president for the 1955-56 business year.

Other officers elected unanimous ballot were:

Alvin Beatty of New Paltz, 1st vice president; William Khachadoorian of Menands, 2nd vice president; Charles Fales of Haverstraw, secretary and Arthur B. Loder of Middletown, treasurer.

GEORGE B. OHLEY of Saugerties was elected a director for five years, and Anthony Delisio of Haverstraw, retiring president, was elected a director for one year. Delegates elected to the state convention in Lake George, September 11-17, were James L. Locke of Kingston, general chairman of the Hudson Valley convention, and Thomas T. Coughlin of Kingston, alternate.

Paul R. Lyons, associate editor of the National Fire Protective Association, was the opening speaker at the Thursday afternoon business session, making an appeal to the volunteers for a greater program of education in the installation and use of oil stoves and space heaters.

POINTING out some 513 fires in the nation from oil heaters last year, Mr. Lyons said that fatalities from such fires were in the one to 14-year age bracket, while injuries sustained were in the 25 to 34-year age group.

House to house inspection of oil stoves and space heaters are increasing throughout the country, Mr. Lyons said, and these visitations prove the most effective means in combatting this type of fire. The summer months, he asserted, is the time to launch the program of inspection as a preventative measure against fires resulting from this type of home heating.

Installers of oil stoves and space heaters can also be of assistance, Mr. Lyons said, in cooperating with the fire departments in checking homes which utilize such heating systems.

HE ALSO CALLED on the firemen to use all publicity mediums such as newspapers, radio and television in setting up a program education for the installation and use of heaters.

Edward Maines, chief of the Port Ewen Fire Department, introduced Mr. Lyons and Albert J. Foley, of Dunkirk, chairman of the law committee of the New York State Volunteer Firemen's Association.

Reviewing the bills contingent upon volunteer firemanics, Mr. Foley commented on legislation affecting bingo, and 20 other bills signed by the governor.

ONE PIECE of legislation, he said, amends the present law with a provision that volunteer firemen on the enrolled books of their company prior to July 1, 1954 are herewith legally appointed firemen, though he pointed out that this law doesn't legalize illegal appointments since the volunteer's name must, in all cases, be submitted to village authorities for approval.

Speaking on the resident qualifications for volunteers, he said it is now possible to accept a volunteer who is not a resident of an area or fire district but whose business or employment avails him the opportunity of responding to alarms within a 24-hour period. Not more than 30 per cent of membership in a company can be non-resident, he pointed out, nor can a volunteer belong to more than one company at a time.

JOSEPH A. CURRAN, national representative of the Muscular Dystrophy Association for America, made an appeal to the firemen for fund-raising efforts and praised their work in be-

Governor Sends Greetings

Harriman Praises Vols For Community Service

Governor Averell Harriman sent his best wishes to the Hudson Valley Firemen's Association convention in a letter to Michael H. Prendergast, director of Division of Safety, Albany, State of New York and read by Mr. Prendergast at the Thursday afternoon session of the convention at the Elks Club to the delegates.

THE LETTER said:

"I have just learned that you are going down to Kingston tomorrow afternoon to attend the Hudson Valley Volunteer Firemen's Association convention.

"As you know I have for the longest while been committed to be in Buffalo for the meeting of the New York State Association of Mayors, but I wonder could I ask you to take along my warm and sincere greetings to that very fine collection of men.

"FOR WELL over half a century they have served the communities of the Hudson Valley with the greatest diligence and physical courage with no recompense whatever save the satisfaction of serving their fellowmen.

"As a Hudson Valley man myself, I feel personally indebted to them and I wish you would tell them so on my behalf, at the same time regretting that I cannot be with them in person."

It was then a weekly. He converted it to a daily the same year. Before going to Oneida he had worked in the advertising departments of the Chicago Tribune and New York Daily News.

The coast guard said it received the distress signal at 4:30 a. m. (CST) and a coast guard cutter reported an hour later that all hands were safe.

Improper Activities Blamed

Russia Expells Three U.S. Embassy Members

Washington, June 17 (AP) — Russia was reported today to have expelled three American military attaches who were part of the embassy staff in Moscow.

Informed officials said the Soviet Foreign Office declared them "persona non grata" because of alleged improper activities.

The phrase in diplomatic language means they are no longer welcome to stay in the country.

These informants declined to reveal the names of the American military officers involved or to say whether they have already left Russia as ordered.

The latest Soviet move comes almost a year after Russia expelled two other American Embassy attaches. Last July 3, the Soviets forced the departure of Lt. Col. H. Felchlin, assistant military attache, and Maj. W. McKinney, assistant air attache. Both men were charged with attempting "to carry out espionage work."

The State Department rejected the Soviet charges, and said it was obvious Russia was ousting Felchlin and McKinney in retaliation for the earlier U. S. expulsion of three Soviet officials who had carried out espionage in the United States.

The Russians who had been forced to leave were Cmdr. Igor A. Amosod, assistant naval attache of the Soviet Embassy; Alexander P. Kovlyov, second secretary of the Soviet delegation at the United Nations in New York, and Lt. Colm Leonid E. Pivnev, assistant embassy air attache.

Amosod and Kovlyov were ordered expelled Feb. 3, 1954, and Pivnev May 29, 1954.

Russia Seeks to Neutralize Japan

Industrial Power Is Attraction for Soviet

Washington, June 17 (AP) — Russia is now seeking to neutralize Japan as well as Germany in a probable strategy aimed eventually at extending its influence over both key industrial nations.

U. S. officals said today that Russia's designs on Japan stand out clearly in one reported price tag which Moscow has put on making a peace treaty with Tokyo. Dispatches say the price is withdrawal of U. S. troops from Japan 90 days after the treaty became effective.

That would be a measure for the neutralization of Japan. American troops there and in Korea provide at present the concrete evidence of American deterrent power and Japan's real protection against military attack.

When the United States and most of its World War 2 allies signed a peace treaty with Japan, a separate agreement was negotiated saying these American forces may remain in Japan as long as a danger of Communist aggression exists and the Japanese are unable to meet it effectively.

American interests in both Germany and Japan are vital and the unfolding pattern of Russia's designs is a matter of intense interest here.

THERE IS WORK INVOLVED in a firemen's convention too. This is the resolutions committee preparing resolutions which were presented to the delegates to the Hudson Valley Volunteer Firemen's Association convention today. From left, Edward N. Coogan, of Pelham, chairman of the committee; Rudy Samter of Stormville; Charles M. Fales, of Haverstraw, secretary of the association; Leroy Gates, of Nyack and George E. Meehan of Mechanicville. Election of officers, a report on firemanic laws affecting volunteers, a plea for a greater concerted effort in civil defense and convention resolutions were cleared from the agenda in the closing business sessions.

WILLIAM ATKISS of Clinton Heights was elected president for the 1955-56 business year.

Other officers elected unanimous ballot were:

Alvin Beatty of New Paltz, 1st vice president; William Khachadoorian of Menands, 2nd vice president; Charles Fales of Haverstraw, secretary and Arthur B. Loder of Middletown, treasurer.

GEORGE B. OHLEY of Saugerties was elected a director for five years, and Anthony Delisio of Haverstraw, retiring president, was elected a director for one year. Delegates elected to the state convention in Lake George, September 11-17, were James L. Locke of Kingston, general chairman of the Hudson Valley convention, and Thomas T. Coughlin of Kingston, alternate.

Paul R. Lyons, associate editor of the National Fire Protective Association, was the opening speaker at the Thursday afternoon business session, making an appeal to the volunteers for a greater program of education in the installation and use of oil stoves and space heaters.

POINTING out some 513 fires in the nation from oil heaters last year, Mr. Lyons said that fatalities from such fires were in the one to 14-year age bracket, while injuries sustained were in the 25 to 34-year age group.

House to house inspection of oil stoves and space heaters are increasing throughout the country, Mr. Lyons said, and these visitations prove the most effective means in combatting this type of fire. The summer months, he asserted, is the time to launch the program of inspection as a preventative measure against fires resulting from this type of home heating.

Installers of oil stoves and space heaters can also be of assistance, Mr. Lyons said, in cooperating with the fire departments in checking homes which utilize such heating systems.

HE ALSO CALLED on the firemen to use all publicity mediums such as newspapers, radio and television in setting up a program education for the installation and use of heaters.

Edward Maines, chief of the Port Ewen Fire Department, introduced Mr. Lyons and Albert J. Foley, of Dunkirk, chairman of the law committee of the New York State Volunteer Firemen's Association.

Reviewing the bills contingent upon volunteer firemanics, Mr. Foley commented on legislation affecting bingo, and 20 other bills signed by the governor.

ONE PIECE of legislation, he said, amends the present law with a provision that volunteer firemen on the enrolled books of their company prior to July 1, 1954 are herewith legally appointed firemen, though he pointed out that this law doesn't legalize illegal appointments since the volunteer's name must, in all cases, be submitted to village authorities for approval.

Speaking on the resident qualifications for volunteers, he said it is now possible to accept a volunteer who is not a resident of an area or fire district but whose business or employment avails him the opportunity of responding to alarms within a 24-hour period. Not more than 30 per cent of membership in a company can be non-resident, he pointed out, nor can a volunteer belong to more than one company at a time.

JOSEPH A. CURRAN, national representative of the Muscular Dystrophy Association for America, made an appeal to the firemen for fund-raising efforts and praised their work in be-

Governor Sends Greetings

Harriman Praises Vols For Community Service

Governor Averell Harriman sent his best wishes to the Hudson Valley Firemen's Association convention in a letter to Michael H. Prendergast, director of Division of Safety, Albany, State of New York and read by Mr. Prendergast at the Thursday afternoon session of the convention at the Elks Club to the delegates.

THE LETTER said:

"I have just learned that you are going down to Kingston tomorrow afternoon to attend the Hudson Valley Volunteer Firemen's Association convention.

"As you know I have for the longest while been committed to be in Buffalo for the meeting of the New York State Association of Mayors, but I wonder could I ask you to take along my warm and sincere greetings to that very fine collection of men.

"FOR WELL over half a century they have served the communities of the Hudson Valley with the greatest diligence and physical courage with no recompense whatever save the satisfaction of serving their fellowmen.

"As a Hudson Valley man myself, I feel personally indebted to them and I wish you would tell them so on my behalf, at the same time regretting that I cannot be with them in person."

Improper Activities Blamed

Russia Expells Three U.S. Embassy Members

Washington, June 17 (AP) — Russia was reported today to have expelled three American military attaches who were part of the embassy staff in Moscow.

Informed officials said the Soviet Foreign Office declared them "persona non grata" because of alleged improper activities.

The phrase in diplomatic language means they are no longer welcome to stay in the country.

These informants declined to reveal the names of the American military officers involved or to say whether they have already left Russia as ordered.

The latest Soviet move comes almost a year after Russia expelled two other American Embassy attaches. Last July 3, the Soviets forced the departure of Lt. Col. H. Felchlin, assistant military attache, and Maj. W. McKinney, assistant air attache. Both men were charged with attempting "to carry out espionage work."

The State Department rejected the Soviet charges, and said it was obvious Russia was ousting Felchlin and McKinney in retaliation for the earlier U. S. expulsion of three Soviet officials who had carried out espionage in the United States.

The Russians who had been forced to leave were Cmdr. Igor A. Amosod, assistant naval attache of the Soviet Embassy; Alexander P. Kovlyov, second secretary of the Soviet delegation at the United Nations in New York, and Lt. Colm Leonid E. Pivnev, assistant embassy air attache.

Amosod and Kovlyov were ordered expelled Feb. 3, 1954, and Pivnev May 29, 1954.

Hope Explosions Will Check Blaze

Renovo, Pa., June 17 (AP)—An expert trouble-shooting team prepared to move 400 pounds of powerful explosives to the center of an intense natural gas well fire today in an effort to snuff out the inferno.

The crew, headed by famed Paul "Red" Adair arrived here from Houston, Tex., this morning and Adair reported after an exploratory trip to the center of the blaze that it would probably be a week before the well could be recapped.

THE COVER or capping valve, of the well blew off yesterday morning and several hours later the huge rush of gas exploded in flames that have burned untold millions of cubic feet of natural gas.

Ten men were injured in the blast, one seriously.

The well, located in the Green Lick field of the New York State Natural Gas Corp. near here, was reported by the company to be rated at 150 million cubic feet a day when it was brought in last week. But Adair and an engineer at the scene said they believed the well was flowing at 200 million cubic feet daily.

Adair, clad in his fire resistant suit, said after his inspection trip that the 4,000 pound well cap was still partially attached to the well. He said he hoped to blow it free and perhaps snuff out the flames with 400 pounds of gelatin nitroglycerin.

HE ATTRIBUTED the cap's removal yesterday to the faulty rubber gasket that apparently gave way under the tremendous pressure of the gas.

Adair planned to move the explosives into the flames under cover of heavy water sprays from emergency tank trucks moved into the area overnight. He said he would proceed behind a steel shield and after placing nitroglycerin, detonate it electrically.

Game Table

An easy renovation project for an old coffee table or bridge table is to transform it into a smart modern looking game table with rubber tile. The resilient tile is easy to cut with a flooring knife into small squares needed for a checkerboard. Lay the tiles on the table top in the pattern desired, then remove and spread surface with rubber tile adhesive and lay tiles in place. Allow to dry 24 hours before using. The rubber top will not be marred by cigarette burns and is easy to keep clean with a damp cloth.

How Many Nails?

Detroit (AP)—Because there are 58,535 nails in one house, Mrs. Irene Simon and Mrs. Caroline Moffatt now own it jointly. Valued at $40,000, the home was a prize at the Detroit Builders Show. Contestants had to guess how many nails it took to build it. Mrs. Simon guessed 58,536; Mrs. Moffatt, 58,534. The winners said they would sell the house and split the money.

Financial and Commercial

New York, June 17 (AP)—The stock market moved along a narrowly mixed course today in the early afternoon.

Tobacco issues pushed ahead at one time with gains that went to between 1 and 2 points, but they subsided from that level in later trading.

The market as a whole showed changes that seldom reached a point in either direction.

Hope Explosions Will Check Blaze

Renovo, Pa., June 17 (AP)—An expert trouble-shooting team prepared to move 400 pounds of powerful explosives to the center of an intense natural gas well fire today in an effort to snuff out the inferno.

The crew, headed by famed Paul "Red" Adair arrived here from Houston, Tex., this morning and Adair reported after an exploratory trip to the center of the blaze that it would probably be a week before the well could be recapped.

THE COVER or capping valve, of the well blew off yesterday morning and several hours later the huge rush of gas exploded in flames that have burned untold millions of cubic feet of natural gas.

Ten men were injured in the blast, one seriously.

The well, located in the Green Lick field of the New York State Natural Gas Corp. near here, was reported by the company to be rated at 150 million cubic feet a day when it was brought in last week. But Adajr and an engineer at the scene said they believed the well was flowing at 200 million cubic feet daily.

Adair, clad in his fire resistant suit, said after his inspection trip that the 4,000 pound well cap was still partially attached to the well. He said he hoped to blow it free and perhaps snuff out the flames with 400 pounds of gelatin nitroglycerin.

HE ATTRIBUTED the cap's removal yesterday to the faulty rubber gasket that apparently gave way under the tremendous pressure of the gas.

Adair planned to move the explosives into the flames under cover of heavy water sprays from emergency tank trucks moved into the area overnight. He said he would proceed behind a steel shield and after placing nitroglycerin, detonate it electrically.

Game Table

An easy renovation project for an old coffee table or bridge table is to transform it into a smart modern looking game table with rubber tile. The resilient tile is easy to cut with a flooring knife into small squares needed for a checkerboard. Lay the tiles on the table top in the pattern desired, then remove and spread surface with rubber tile adhesive and lay tiles in place. Allow to dry 24 hours before using. The rubber top will not be marred by cigarette burns and is easy to keep clean with a damp cloth.

Contestants had to guess how many nails it took to build it. Mrs. Simon guessed 58,536; Mrs. Moffatt, 58,534. The winners said they would sell the house and split the money.

Financial and Commercial

New York, June 17 (AP)—The stock market moved along a narrowly mixed course today in the early afternoon.

Tobacco issues pushed ahead at one time with gains that went to between 1 and 2 points, but they subsided from that level in later trading.

The market as a whole showed changes that seldom reached a point in either direction.

SOVIETS' SATELLITE STRENGTH—When Soviet leaders sit down with their brief cases at the upcoming Big Four conference, they'll have overwhelming manpower behind them, in addition to the vast hordes of Russia's Red army proper. For while they've been talking peace, they've been developing their muscles—via the "Red NATO." Newschart above shows the effect this new, formal "partnership" has on Communist strength in Eastern Europe. There are now nearly two million satellite men under arms. Map figures show individual military strength in the satellites. They represent security police, frontier guards, reserves and regulars. Cities shown on map, including East Berlin, are the 18 principal military headquarters that get signals from the Kremlin.

Memorial Day Parade
June 13, 1955

Editor, The Freeman:

I read with great interest Reupen Gullian's excellent letter several days ago regarding Memorial Day observance. For several years there has been some discussion at home and among friends as to how much recent parades on that day have fallen away from the standards of a generation ago.

I can fully agree with Mr. Gullian that if we are to continue to have Memorial Day parades at all, they should be staged with dignity and solemnity, as the occasion does warrant.

There should be no place for quick music; for drum-majorettes or baton or handkerchief twirlers, however attractive or earnest; for fire-trucks; for advertising; for hawkers and vendors; or, in fact, for the motley cavalcade which has closed the parades of the last few years, circus fashion.

The matter of military equipment calls for a little thought. It would seem traditional that there be some of it. Current Army formations seem to have become so much a matter of machines, with men incidental to the running of them. However, dumb machinery suggests little in the form of reverence, but tends to become merely a yearly display of copious, gradually obsolescent equipment.

The men themselves in line would seem more appropriate to such occasions. Actually, in what little parading we did in the Navy we assuredly were not accompanied by our signal searchlights, our field radios or even our seabags and hammocks. If we are to have more Koreas, marching drill practice is obviously worth while, and especially on Memorial Days.

If we must fill out our parades with fun, excrescences and increasing honky-tonk, we really would do better service to our friends who died in combat or were lost at sea and to the others who have served in many wars by eliminating the processions completely, with each of us observing the day in whatever way seems best to him.

Sincerely,
CHARLES GRANT ELLIS.

Chevrolet's special hill-flatteners!
162 H.P. V8
180 H.P. V8
See that fine fat mountain yonder?
You can iron it out, flat as a flounder . . . and easy as whistling!
Just point one of Chevrolet's special hill-flatteners at it (either the 162-h.p. "Turbo-Fire V8" or the 180-h.p. "Super Turbo-Fire"*) . . . and pull the trigger!
Barr-r-r-r-o-o-O-O-OOM!
Mister, you got you a flat mountain!
. . . At least it *feels* flat. For these Chevrolet V8's gobble up the toughest grades you can ladle out. And holler for more. They love to climb, because that's just about the only time the throttle ever comes near the floorboard.
And that's a pity. For here are engines that sing as sweetly as a dynamo . . . built to pour out a torrent of pure, vibrationless power. Big-bore V8's with the shortest stroke in the industry, designed to gulp huge breaths of fresh air and transmute it into blazing acceleration.
So most of the time they loaf. Even at the speed limit they just dream along, light and easy as a zephyr, purring out an effortless fraction of their strength.
An engineer instantly understands why these V8's are so hyper-efficient . . . how friction is held so low they need just *four* quarts of oil instead of the usual five or more . . . how big valves let them "breathe" deeply for maximum power.
But you don't have to be an engineer to know that these are the sweetest running V8's you ever piloted. Just come in, slip behind the wheel, and point the nose at the nearest hill. *These* V8's can do their own talking . . . and nobody argues with them!
*Optional at extra cost.

Piano Crushes Child

Detroit, June 17 (AP) — Five-year-old Paul Gallo was crushed to death yesterday by a piano that fell on him in a kindergarten class. The teacher, Miss Harriet Andrews, 26, sobbed out the story. She was pushing the heavy upright to the center for the daily music hour. Paul ran to help her. The piano apparently hit a snag in the floor and toppled on the lad.

Memorial Day Parade
June 13, 1955

Editor, The Freeman:

I read with great interest Reupen Gullian's excellent letter several days ago regarding Memorial Day observance. For several years there has been some discussion at home and among friends as to how much recent parades on that day have fallen away from the standards of a generation ago.

I can fully agree with Mr. Gullian that if we are to continue to have Memorial Day parades at all, they should be staged with dignity and solemnity, as the occasion does warrant.

There should be no place for quick music; for drum-majorettes or baton or handkerchief twirlers, however attractive or earnest; for fire-trucks; for advertising; for hawkers and vendors; or, in fact, for the motley cavalcade which has closed the parades of the last few years, circus fashion.

The matter of military equipment calls for a little thought. It would seem traditional that there be some of it. Current Army formations seem to have become so much a matter of machines, with men incidental to the running of them. However, dumb machinery suggests little in the form of reverence, but tends to become merely a yearly display of copious, gradually obsolescent equipment.

The men themselves in line would seem more appropriate to such occasions. Actually, in what little parading we did in the Navy we assuredly were not accompanied by our signal searchlights, our field radios or even our seabags and hammocks. If we are to have more Koreas, marching drill practice is obviously worth while, and especially on Memorial Days.

If we must fill out our parades with fun, excrescences and increasing honky-tonk, we really would do better service to our friends who died in combat or were lost at sea and to the others who have served in many wars by eliminating the processions completely, with each of us observing the day in whatever way seems best to him.

Sincerely,
CHARLES GRANT ELLIS.

Toy in Mouth Fatal

Nashville, Tenn., June 17 (AP)—A six-month-old boy, just learning to crawl, jammed a toy telephone into his throat and died before it could be withdrawn. Mrs. Karl G. Fredebeil said she left her son, Joseph Karlton Fredebeil, alone yesterday for only a few moments. When she returned she found the toy in his throat. Efforts to pull the toy from his mouth brought on severe bleeding, so the tot was rushed to a hospital. He was dead on arrival.

Copeland, of nearby Olive Hill, was describing the death of his fishing companion, Raymond White, 48, of Olive Hill. The body was recovered from Indian creek yesterday. Coroner P. M. Wade Sr. said no sign of foul play was evident and ruled the death a suicide.

KINGSTON WELCOMES FIREMEN

Kingston welcomes members of the Hudson Valley Volunteer Firemen's Association and their auxiliaries to the 66th annual convention being held here.

In appreciation for the self-sacrificing service rendered by the volunteers down through the years, the citizens of the City of Kingston are enthusiastically cooperating with the local volunteers to make this convention an outstanding success.

The contribution to the community made by the volunteers over the 200 years the volunteer fire service has been established here is inestimable. On duty day and night, the volunteers have responded and at great inconvenience to their families and themselves to help save lives and preserve personal property when fire has struck.

The convention here also will honor Fire Chief Joseph L. Murphy who for over a half century has been active in firemanic activities.

The convention and the parade, which will be held Saturday, are dedicated to Fire Chief Murphy, who is recognized as one of the outstanding fire chiefs in New York State.

This is the first Hudson Valley Volunteer Firemen's convention here since 1928 and we trust that the volunteers, their auxiliaries and their friends thoroughly enjoy the occasion.

TIME FOR YOUR NAP

Nap and live longer. This advice is given by Dr. Clarence A. Mills, professor of experimental medicine at the University of Cincinnati. He says, "Proper hours of sleep at night are essential, but a short afternoon nap is equally important." Perhaps the time devoted in offices to "coffee breaks" might benefit workers more if they relaxed for a few minutes.

Within the American tradition of hustle, this advice makes good sense.

ATOMS FOR PEACE

In a commencement address at Pennsylvania State University President Eisenhower offered a twofold proposal which would stimulate progress in the search to find ways to use atomic energy as a servant of man rather than as his destroyer.

His first proposal is to offer atomic research reactors to free nations who can use them effectively. Our country would pay half the costs of these reactors and would supply the nuclear materials to fuel them. The second proposal is related to the first and would make available, to free nations willing to invest their own money in reactors, training in technical processes of construction and operation of such reactors.

The United States has been the driving force in the world-wide coalition to halt communism. That the free world is strong enough to resist is in large measure due to our contributions of military assistance. Yet the President realizes that military aid is not enough, nor is economic help enough. We have solved many of the secrets of the atom and we can demonstrate that our leadership is positive and constructive by putting that knowledge to work.

Atomic power, intelligently exploited, may yet open an age so wonderful that other "golden ages" of history will suffer by comparison. It is heartening to see the President aware of American responsibility and willing to act to fulfill it.

THE NEW NEW WORLD

The New World was the name given by Europeans, astonished at the discovery of a land mass whose existence had not been suspected, and larger than all Europe. Ever since then the New World has meant North and South America together.

Now we may be witnessing the emergence of another New World, that of Asiatic and African nationalism. Everywhere in these two huge continents peoples who long have been quiet under European control are awakening and demanding the right to manage their own affairs. The old days of colonialism seem to be over, yet the nature of its successor is not fully determined.

The rise of this second New World may be fully as significant as the discovery of the first.

'These Days'

By GEORGE SOKOLSKY

GENEVA AND YALTA

As the date, July 18, aproaches for the "At the Summit" Conference, at Geneva, it is impossible not to dwell on Yalta which set the pattern for such meetings of the mighty. We do not quite know what happened at Teheran; that is still secret. Yalta must be in the minds of President Eisenhower and Secretary of State John Foster Dulles, when they play down the significance of the forthcoming conference and seek to limit it. They seem to say to the American people, "Do not expect too much."

Yalta was a wicked meeting at which pragmatic gentlemen determined the course of history for perhaps a century without the lodestar of public or private morals. They did what they did. That is all.

Professor G. F. Hudson of Oxford describes it this way:

". . . The problem for the historian is to discover the assumptions, motive and calculations in the minds of those who came to these decisions, and in this respect the policy of the British representatives at Yalta is considerably less intelligible than that of either the Soviet or the American leaders. It is fairly plan what Stalin wanted—which was in the main identical with what he got. The aspirations and purposes of Roosevelt are somewhat less clear, but there is a great deal of evidence on his state of mind at the time, and given the extraordinary delusions which he cherished with regard to the nature of the Soviet regime, his general attitude at Yalta affords no cause for astonishment. Churchill, on the other hand, appears to have had a far better understanding of the trend of events in Europe, and in view of the fact that British interests at that time were much more at stake than American in the continental balance of power, the British position in the Yalta negotiations is indeed hard to comprehend."

Churchill once explained to me his difficulty in these words:

"We were a dependent people." As one reads the published version of the Yalta Conference, it would appear that Roosevelt united with Stalin against Churchill, and Churchill was helpless because his country was at war and these were his allies. He might have walked out of Yalta in protest, but what would have become of his country which was in a state of siege, protected by the United States? So he stayed and signed. He may even have been ashamed. Who knows?

At Geneva, Eisenhower will have to deal either with Bulganin, the No. 2 man of the Russian hierarchy, or Khrushchev, the Boss. Bulganin wil be correct in his conduct, carefully briefed, functioning according to instructions. Should Khrushchev come to Geneva, Eisenhower will meet an astute politician who worked his way up from a miner in the days of Stalin when living was dangerous. Those who view Khrushchev as a clown because of his pursuit of those things which come naturally to him, in Yugoslavia, and who therefore think him weaker than the dour, smileless Russians whom they have heretofore encountered, appraise the man incorrectly.

Khrushchev could not have moved up through all the impediments and road blocks of Russian political life, in the time of Stalin, were he not astute and tricky and sure of foot. Had it been otherwise, he would have lost his head. Those who survived the purges are men who struggled toward the sun and got there despite all attempts to keep them down. From a Marxian standpoint, they are the survival of the fittest.

Khrushchev is different from others in that he reached the summit not by political selection or accident but by his own genius in the manipulation of the Communist apparatus. Stalin's heirs were Malenkov, Beria and Molotov. Where are they now? Beria was caught maneuvering and was killed. Malenkov was reduced to the lowest position in the Presidium, but was permitted to live because he accepted blame for errors that Khrushchev made. Molotov has been reduced to a nonentity and is about to be retired to the noble role of an elder statesman.

Khrushchev found it necessary to have only one of those who stood in his way killed. The other two he handled with gentle astuteness. But he did handle them and he reached the top. Maybe one of the purposes of the Yugoslavia visit was to display to the outside world who is the Boss, lest some mistake title for reality.

That Body of Yours

By JAMES W. BARTON, M.D.

AUTOMOBILE COLLISION INJURIES

We are all aware of the tremendous loss of life, the crippling and disfiguring from accidents which takes place on our highways every hour of the day and night. Courses in automobile driving with safety emphasis and other forms of public education are becoming increasingly available. Every step we can take forward against this public enemy should be encouraged.

Let us look for a moment at what actually happens in automobile accidents. The main cause of injury is the uncontrollable motion of the occupant in relation to that of the car. For example, in head-on collisions, the individual is thrown forward, at approximately the speed of the automobile at the instant preceding the accident, with resultant impact against the steering wheel, windshield or dashboard.

When the collision is from the rear, the automobile is thrust forward from beneath its passengers who are thus thrown backward. What is called a whiplash injury results when the head and neck are snapped backward. Sprains or strains may result from twisting and wrenching.

Among 1,475 persons in automobile collisions, two-thirds of the injuries were caused by impact, or crushing, usually involving the head, arms and shoulders, or legs. The remainder were the result of whiplash and wrenching commonly affecting the neck, arms and shoulders, or back.

Injuries of the drivers were mainly of the head and neck, arms and shoulders, or back, while those of the passengers were the same except that the legs and pelvis were injured more often than the back.

Some suggestions for protective measures are put forward by Robert G. Livingstone in "Surgery," which would certainly require some extensive changes in automobile design. In addition to the seat belt which holds the occupant firmly and squarely in the seat, he suggests:

1. Elimination of all sharp edges and projections.
2. Push-button controls and recessed fittings.
3. Generous use of padding throughout the car.
4. Use of plastic or "pop-out" windshields.
5. Use of a flexible joint in the steering column which would yield under pressure.
6. Installation of nonrigid dashboards.
7. Elevation of the backs of the seats to support the head and neck.
8. Use of periscope rearview mirrors.
9. Use of locking or anchoring devices in all seats.
10. Use of body construction material which will reflect or absorb the force of impact.
11. Installation of shock-absorbing bumpers.

This is surely an impressive list to offer our car designers in this year of so many new styles among cars but it is a list worth studying, if we are to cut down on the horrifying death toll of the highways.

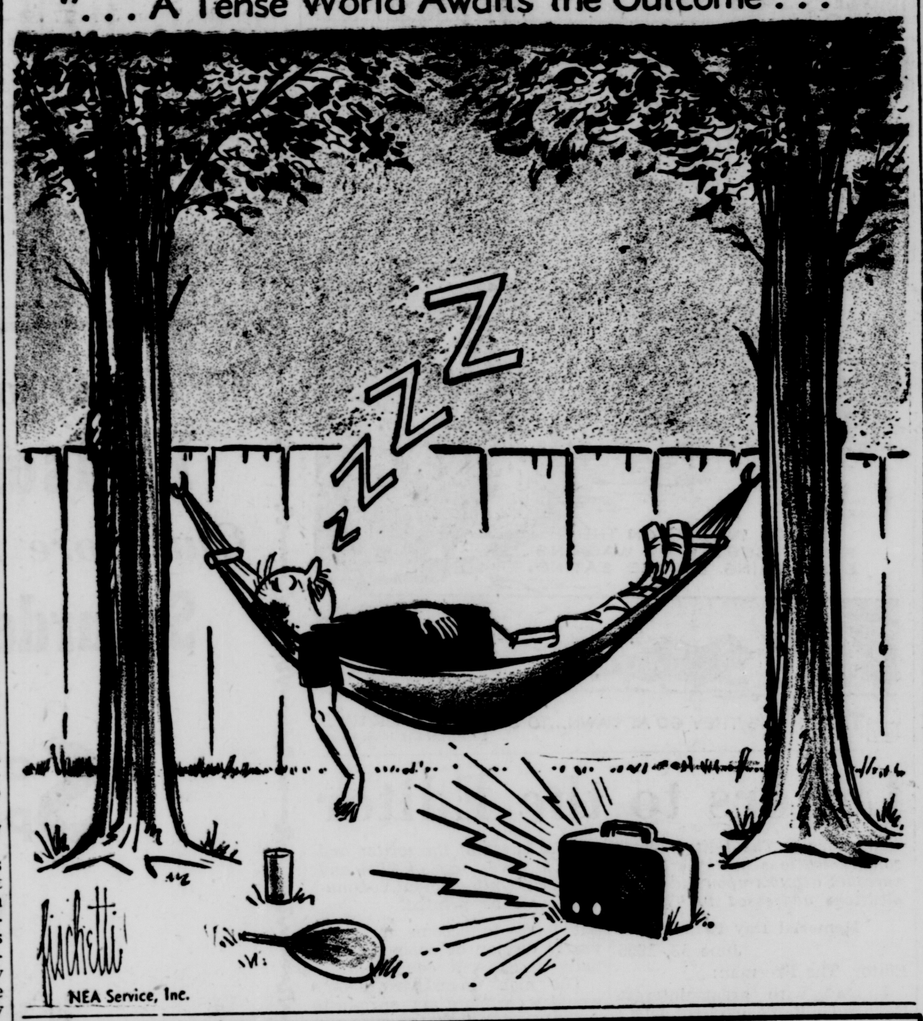
"... A Tense World Awaits the Outcome ..."



Edson's Washington News Notebook

BY PETER EDSON
NEA Washington Correspondent

Washington, (NEA)—A campaign to finance and force President Dwight D. Eisenhower to run for a second term of office has already been started among his White House staff.

This has been done somewhat on the q.t. Also, it was done without the President's knowledge or consent.

The news leaked out in Washington last week as a few members of the palace guard began to appear in public with little plastic pins in their coat lapel buttonholes reading "CLub." The bottom, horizontal line of the capital L extended below the smaller letters ub.

The first one was noticed gleaming on the dark blue suit of Gov. Harold Stassen, foreign operations administrator who soon becomes the unofficial Cabinet "Secretary of Peace."

ANOTHER PIN was worn by Homer H. Gruenther, assistant to the Assistant to the President, Gov. Sherman Adams, and a brother of NATO Commander in Chief Alfred M. Gruenther.

The civilian Gruenther was a little shy in explaining what the CLub pin was all about. He kissed it off with the comment, "Oh, it's just a little club that we have."

From Maj. Gen. Wilton B. Persons, deputy assistant to the President, came the first explanation. General Persons wasn't wearing his pin, explaining it was home on his other suit. But he belonged, he said, and so did most of the other members of the White House staff.

The correct, full name of the CLub, he explained, is "The 150 Club." Now this is neat, but it's also tricky, so follow closely. "C" is the Roman numeral for 100, as every fourth grader should know. "L" is the Roman numeral for 50. "CL" is 150. Get it?

All right. Each cell, or CLub unit is supposed to have 150 members. Every member of the CLub—and here is the gimmick—is supposed to go out and start a unit of his own with another 150 members.

NOBODY KNOWS just how this thing started. Someone whose letter has now been conveniently lost—presumably the button manufacturer—sent in a flock of the CLub emblems and asked for a White House blessing. The original plan was to get $150 from each member. Nobody took that seriously.

The buttons finally ended up in the hands of one of the Filipino mess attendants at the White House. He started peddling them for $1.50 and sold out.

The arithmetic of this thing is terrific. The pins cost a cent apiece, so the profit on the first CLub of 150 members would be $224.50. One thousand CLubs would make $224,500. It would all supposedly be turned in to the Republican Finance Committee to help renominate Eisenhower.

But GOP headquarters say they never heard of the CLub and to date they have received no money.

General Persons, asked if Ike knew about this, said: "He probably doesn't. If he did, he'd give somebody hell."

This CLub idea is reminiscent of other trick schemes which have been thought up to finance political activities.

There was, for instance, President Franklin D. Roosevelt's "One Thousand Club," for the 1944 campaign. A thousand members were supposed to give $1000 apiece to raise one million dollars.

This goal was way too high. Only 291 members were ever signed up and some of them didn't give the full $1000.

IN THE 1948 CAMPAIGN, Beardsley Ruml, father of the pay-as-you-go income tax collection scheme and treasurer of the Democratic National Committee, dreamed up a political financing plan at a lower level.

He proposed that ordinary voters buy memberships in the party of their choice at $5 a head. He put it on the basis of being a civic duty to clean up campaign contributions.

If half of the 60 milion voters paid up, there would be 150 million dollars to divide between the two major parties. Conservatively, Ruml hoped he could get 400,000 Democrats to give $5 apiece, to raise two million dollars. But he never reached that goal.

The CIO Political Action Committee and the AFL Labor's League for Political Education have for some years worked on their 15 million or more members to give a dollar apiece to finance their campaigns.

The best they were ever able to do—in 1950—was to raise a little over one million dollars each. But they're still trying.

Maybe the Eisenhower CLub idea will catch on and do better.

Twenty and Ten Years Ago

June 17, 1935—A five-member recreation committee was named here to take charge of city park activities.

Harry Palen, former Stone Ridge postmaster, died.

Mrs. John Dolan, of Abruyn street, died.

Joseph J. Glennon, of Hunter street, died.

* * *

June 17, 1945—Mayor William F. Edelmuth was expected to be named by the Democratic party to succeed himself.

Roads in the town of Wawarsing were reported damaged by heavy rains.

The Kingston Recreations trimmed the New York Fire Department baseball team 8-2 at the municipal stadium.

Fred B. Dennis, local pharmacist, retired after 64 years in the drug business, was due to leave here to live in Rockford, Ill.

The City Hall of Rimini, Italy

The Palazzo Communale (City Hall) of Rimini, Italy, was built around five arches which no one knew what to do with for 350 years. The arches were erected in 1204 for an unknown reason. They stood around for 3½ centuries and the city, having the choice of demolishing or using them, decided to build its communal palace or City Hall around them. They are now the five last arches on the right of the picture.

Today at 3-Power Conference

Foreign Ministers Try Guessing Goal of Reds

By DAVID LAWRENCE

An adventure in the realm of appraisal—guessing the Soviet mind—took up most of the time of the three Foreign Ministers at their sessions here. About all they could focus on was that the Communists probably have something very definite in view besides mere propaganda.

This is an accurate analysis because everything for several weeks has pointed to the strategy of the Soviets as aimed at achieving definite gains at the conference table and not just a point or two for further debate on the radio waves.

Certainly the Communists are after something definite. They want to isolate Germany and Austria and want the United States troops withdrawn from Europe. They would like to see the German people tempted by the bait of reunification so that no German troops will ever join the western defense. They would like to weaken the North Atlantic Treaty Organization, too. All this is part of a deliberate program.

What Messrs. Dulles, Pinay and Macmillan, representing the United States, France and Great Britain, are trying to do is to figure out some way to meet this unusual form of attack. Naturally the three foreign ministers are cautious. When they meet with Soviet Foreign Minister Molotov in San Francisco next week they will not try to settle anything except procedures — that is, how the Geneva conference of the four heads of state "at the summit" is to be conducted.

Thus far there is no formalized Agenda, which means that nature will have to take its course once the "summit" conference gets going. But already it is announced that in the three or four days of the historic four-power conference nothing is to be decided on the major issues except the manner in which these issues are to be tackled thereafter. Shall it be by the establishment of an agenda of subjects with special meetings of commissions to consider the pro and the con? Shall the United Nations be asked to take up some of the problems?

Certainly the four-power conference at Geneva will mention every subject that today tends to disturb the peace of the world and some one of the participants will urge that something be done about each. But it is too early to say whether anybody will come up with a solution for the simple reason that no one knows if the Soviets have in mind the removal of the basic causes of world unrest—their own aggressive operations throughout the western countries.

So the three foreign ministers after a long conference here have concluded that it is necessary to keep open minded and on the alert. Foreign Secretary Macmillan of Great Britain put it this way afterward in a public speech:

"There are signs of a new look in Communist policy, a certain reduction of tension, a greater flexibility. But really that makes it all the more difficult not to make mistakes . . .

"What this meeting should be is not the end but the beginning. It should be the beginning of a new and fruitful phase. The heads of government could take a broad survey of the field, however wide. They would not seek to reach final agreements, but rather to agree upon the scope and the problems to be solved and the methods by which agreements could eventually emerge. They would plan the outline of the work for the foreign secretaries to carry on. This in some cases might best be carried out by other international procedures, such as the United Nations."

Mr. Macmillan didn't say a word about "compromise" nor did he hint that another Yalta type conference was in the offing, as did Adlai Stevenson in his speech earlier this week. Mr. Macmillan is purposely vague because no one knows how much faith or trust can be put in the Communist proposals.

"The Daily Worker," Communist publication here, is of course all in favor of compromise and in an enthusiastic editorial Wednesday morning commends Adlai Stevenson for his speech and denounces Republicans who disagree as well as "some of Stevenson's own colleagues in Congress" for their skeptical attitude toward the Big Four conference.

Plainly the only safe attitude for the western statesmen to adopt toward the Russians is best expressed by old American slang: "You've got to show me."

AS PEGLER SEES IT

By WESTBROOK PEGLER

When Henry Wallace was secretary of agriculture, he fell in with a religious faker from Old St. Petersburg, Russia, named Nicholas Roerich. During a weird association, he wrote this mysterious character many letters which were ground for serious public alarm. Yet, knowing all about this correspondence with a mountebank who professed to be not exactly God but a preternatural spirit, the grand cabal of the Roosevelt regime suppressed the facts. So did the Republicans. They had the stuff in hand and thoroughly verified long before the Democratic convention of 1940 in which Eleanor Rosevelt audaciously calmed a howling mob of roughneck Democrats who otherwise might have killed Walace by hand. Thus, Eleanor put Wallace over as vice president.

The Republicans were in a strange thrall. They doggedly refrained from publishing this gibberish. The late Paul Block made a personal decision to keep this historical knowledge out of his papers in Pittsburgh and Toledo after Ray Springle, one of his reporters, had nailed down most of the essentials.

To this day, the only American papers which have published this historical information are clients of these essays as distributed through King Features Syndicate. Most of the American press snubbed this evil page of our history. It cannot be said that they did this out of respect for private property, the fruit of my initiative. After the truth had been published exclusively here, it was part of the public domain. They decided that the public must not know.

However, my point today is not this guilt of the great American free press which peers down its nose at Peron in Buenos Aires, but the present eagerness of the same cabal, extending now into the mock-Republican Eisenhower Administration, to throw patriotic Americans into lunatic asylums. There are other cases, but, for today's purpose, I refer again to the immurement in a madhouse in Washington of Mrs. Lucille Miller, of Bethel, Vt., because she exposed Communists in the Sylvan fastness of the Green Mountains.

Herbert Brownell, the Attorney General, by official order, wafed this fighting patriot far from her home and family, including three young children, on the mere presentment of two psychiatrists that she was, in their opinion, "disturbed." Yet there is no outcry from the Great New York Times, which for years has been quaking and quailing in fear of nameless horrors. The Times has not said one single word of objection to a nocturnal raid of 40 armed policemen directed by a United States marshal who fired tear gas bombs into the Miller home, made her unconscious and stunk up the little dwelling so badly that Mrs. Miller's elderly mother spent the entire next day airing it out and trying to decontaminate rugs, bedding and upholstery. She had spent the night cowering in the bushes.

This horror was perpetrated by authority of the Department of Justice and Mrs. Miller has since been confined among lunatics in a goverment bedlam by authority of the Attorney General. Assuming, for the purpose of discussion, that Mrs. Miller is demented, we find no contention that it was necessary to lock her up at all. She was not violent. She had never tried or threatened to hurt anyone or to damage property. Her patriotic writings have been vehement but she has never been charged with inciting violence, by contrast with a large collection of indications by union bosses to burn, pillage, [illegible]ains and beat and shoot citizens.

The New York Times is easily alarmed over the dismissal from a government job of any individual who associates with traitorous persons. That is "terrorism" which creates an "atmosphere of fear." But there is no "terrorism" in the persecution of Mrs. Miller.

In breaking the story of Wallace's idiotic letters to his Guru, I presented the opinion of Hamish McLaurin, one of our greatest authorities on Oriental philosophies and religions. He said Bubblehead's letters to Roerich wer silly gabble.

They were appalling screeds. The very idea that a man capable of putting such gibberish on paper could become vice president of the United States, especially in time of war, should frighten any American. Yet Frances Perkins wrote that Roosevelt himself picked Wallace by phone to her, and thousands who were present remember that the delegates there in Chicago were ready to stamp Wallace to death.

It was a terrible scene, Bugs Baer wrote that Jimmy Petrillo, a Democrat, of course, rushed a messenger upstairs to command the organist to strike up "Franklin D. Roosevelt Jones." The organist sent back word that his schedule called for some other tune just then. Bugs wrote that Petrollio then sent the messenger back to ask the organist how he would like two handfuls of smashed knuckles, so "Franklin D. Roosevelt Jones" blared forth. Within the last year both Chief Justice Earl Warren and Harry Truman have paid elaborate homage to Petrillo.

Notwithstanding those letters which were known to both Democrats and Republicans, Wallace served four years in wartime, within one heartbeat of the presidency of our country. Nobody ever set psychiatrists on him or tried to lock him up in St. Elizabeth's although his home, then, was only a few blocks away. For contrast note the campaign of "psychiatric" insinuations against Joe McCarthy by "analysts" who never met the man.

In 1948 when he was the candidate of the Communists for president on his own "progressive" ticket, I challenged Wallace at his "convention" of Reds in Philadelphia to say whether he wrote those goofy Guru letters. He refused to answer. But I can tell you this all right. He wrote them. He knows I can prove it and so does the New York Tiimes.

KINGSTON, NEW YORK, JUNE 17, 1955

KINGSTON WELCOMES FIREMEN

Kingston welcomes members of the Hudson Valley Volunteer Firemen's Association and their auxiliaries to the 66th annual convention being held here.

In appreciation for the self-sacrificing service rendered by the volunteers down through the years, the citizens of the City of Kingston are enthusiastically cooperating with the local volunteers to make this convention an outstanding success.

The contribution to the community made by the volunteers over the 200 years the volunteer fire service has been established here is inestimable. On duty day and night, the volunteers have responded and at great inconvenience to their families and themselves to help save lives and preserve personal property when fire has struck.

The convention here also will honor Fire Chief Joseph L. Murphy who for over a half century has been active in firemanic activities.

The convention and the parade, which will be held Saturday, are dedicated to Fire Chief Murphy, who is recognized as one of the outstanding fire chiefs in New York State.

This is the first Hudson Valley Volunteer Firemen's convention here since 1928 and we trust that the volunteers, their auxiliaries and their friends thoroughly enjoy the occasion.

TIME FOR YOUR NAP

Nap and live longer. This advice is given by Dr. Clarence A. Mills, professor of experimental medicine at the University of Cincinnati. He says, "Proper hours of sleep at night are essential, but a short afternoon nap is equally important." Perhaps the time devoted in offices to "coffee breaks" might benefit workers more if they relaxed for a few minutes.

Within the American tradition of hustle, this advice makes good sense.

ATOMS FOR PEACE

In a commencement address at Pennsylvania State University President Eisenhower offered a twofold proposal which would stimulate progress in the search to find ways to use atomic energy as a servant of man rather than as his destroyer.

His first proposal is to offer atomic research reactors to free nations who can use them effectively. Our country would pay half the costs of these reactors and would supply the nuclear materials to fuel them. The second proposal is related to the first and would make available, to free nations willing to invest their own money in reactors, training in technical processes of construction and operation of such reactors.

The United States has been the driving force in the world-wide coalition to halt communism. That the free world is strong enough to resist is in large measure due to our contributions of military assistance. Yet the President realizes that military aid is not enough, nor is economic help enough. We have solved many of the secrets of the atom and we can demonstrate that our leadership is positive and constructive by putting that knowledge to work.

Atomic power, intelligently exploited, may yet open an age so wonderful that other "golden ages" of history will suffer by comparison. It is heartening to see the President aware of American responsibility and willing to act to fulfill it.

THE NEW NEW WORLD

The New World was the name given by Europeans, astonished at the discovery of a land mass whose existence had not been suspected, and larger than all Europe. Ever since then the New World has meant North and South America together.

Now we may be witnessing the emergence of another New World, that of Asiatic and African nationalism. Everywhere in these two huge continents peoples who long have been quiet under European control are awakening and demanding the right to manage their own affairs. The old days of colonialism seem to be over, yet the nature of its successor is not fully determined.

The rise of this second New World may be fully as significant as the discovery of the first.

'These Days'

By GEORGE SOKOLSKY

GENEVA AND YALTA

As the date, July 18, aproaches for the "At the Summit" Conference, at Geneva, it is impossible not to dwell on Yalta which set the pattern for such meetings of the mighty. We do not quite know what happened at Teheran; that is still secret. Yalta must be in the minds of President Eisenhower and Secretary of State John Foster Dulles, when they play down the significance of the forthcoming conference and seek to limit it. They seem to say to the American people, "Do not expect too much."

Yalta was a wicked meeting at which pragmatic gentlemen determined the course of history for perhaps a century without the lodestar of public or private morals. They did what they did. That is all.

Professor G. F. Hudson of Oxford describes it this way:

". . . The problem for the historian is to discover the assumptions, motive and calculations in the minds of those who came to these decisions, and in this respect the policy of the British representatives at Yalta is considerably less intelligible than that of either the Soviet or the American leaders. It is fairly plan what Stalin wanted—which was in the main identical with what he got. The aspirations and purposes of Roosevelt are somewhat less clear, but there is a great deal of evidence on his state of mind at the time, and given the extraordinary delusions which he cherished with regard to the nature of the Soviet regime, his general attitude at Yalta affords no cause for astonishment. Churchill, on the other hand, appears to have had a far better understanding of the trend of events in Europe, and in view of the fact that British interests at that time were much more at stake than American in the continental balance of power, the British position in the Yalta negotiations is indeed hard to comprehend."

Churchill once explained to me his difficulty in these words:

"We were a dependent people." As one reads the published version of the Yalta Conference, it would appear that Roosevelt united with Stalin against Churchill, and Churchill was helpless because his country was at war and these were his allies. He might have walked out of Yalta in protest, but what would have become of his country which was in a state of siege, protected by the United States? So he stayed and signed. He may even have been ashamed. Who knows?

At Geneva, Eisenhower will have to deal either with Bulganin, the No. 2 man of the Russian hierarchy, or Khrushchev, the Boss. Bulganin wil be correct in his conduct, carefully briefed, functioning according to instructions. Should Khrushchev come to Geneva, Eisenhower will meet an astute politician who worked his way up from a miner in the days of Stalin when living was dangerous. Those who view Khrushchev as a clown because of his pursuit of those things which come naturally to him, in Yugoslavia, and who therefore think him weaker than the dour, smileless Russians whom they have heretofore encountered, appraise the man incorrectly.

Khrushchev could not have moved up through all the impediments and road blocks of Russian political life, in the time of Stalin, were he not astute and tricky and sure of foot. Had it been otherwise, he would have lost his head. Those who survived the purges are men who struggled toward the sun and got there despite all attempts to keep them down. From a Marxian standpoint, they are the survival of the fittest.

Khrushchev is different from others in that he reached the summit not by political selection or accident but by his own genius in the manipulation of the Communist apparatus. Stalin's heirs were Malenkov, Beria and Molotov. Where are they now? Beria was caught maneuvering and was killed. Malenkov was reduced to the lowest position in the Presidium, but was permitted to live because he accepted blame for errors that Khrushchev made. Molotov has been reduced to a nonentity and is about to be retired to the noble role of an elder statesman.

Khrushchev found it necessary to have only one of those who stood in his way killed. The other two he handled with gentle astuteness. But he did handle them and he reached the top. Maybe one of the purposes of the Yugoslavia visit was to display to the outside world who is the Boss, lest some mistake title for reality.

That Body of Yours

AUTOMOBILE COLLISION INJURIES

We are all aware of the tremendous loss of life, the crippling and disfiguring from accidents which takes place on our highways every hour of the day and night. Courses in automobile driving with safety emphasis and other forms of public education are becoming increasingly available. Every step we can take forward against this public enemy should be encouraged.

Let us look for a moment at what actually happens in automobile accidents. The main cause of injury is the uncontrollable motion of the occupant in relation to that of the car. For example, in head-on collisions, the individual is thrown forward, at approximately the speed of the automobile at the instant preceding the accident, with resultant impact against the steering wheel, windshield or dashboard.

When the collision is from the rear, the automobile is thrust forward from beneath its passengers who are thus thrown backward. What is called a whiplash injury results when the head and neck are snapped backward. Sprains or strains may result from twisting and wrenching.

Among 1,475 persons in automobile collisions, two-thirds of the injuries were caused by impact or crushing, usually involving the head, arms and shoulders, or legs. The remainder were the result of whiplash and wrenching commonly affecting the neck, arms and shoulders, or back.

Injuries of the drivers were mainly of the head and neck, arms and shoulders, or back, while those of the passengers were the same except that the legs and pelvis were injured more often than the back.

Some suggestions for protective measures are put forward by Robert G. Livingstone in "Surgery," which would certainly require some extensive changes in automobile design. In addition to the seat belt which holds the occupant firmly and squarely in the seat, he suggests:

1. Elimination of all sharp edges and projections.
2. Push-button controls and recessed fittings.
3. Generous use of padding throughout the car.
4. Use of plastic or "pop-out" windshields.
5. Use of a flexible joint in the steering column which would yield under pressure.
6. Installation of nonrigid dashboards.
7. Elevation of the backs of the seats to support the head and neck.
8. Use of periscope rearview mirrors.
9. Use of locking or anchoring devices in all seats.
10. Use of body construction material which will reflect or absorb the force of impact.
11. Installation of shock-absorbing bumpers.

This is surely an impressive list to offer our car designers in this year of so many new styles among cars but it is a list worth studying, if we are to cut down on the horrifying death toll of the highways.

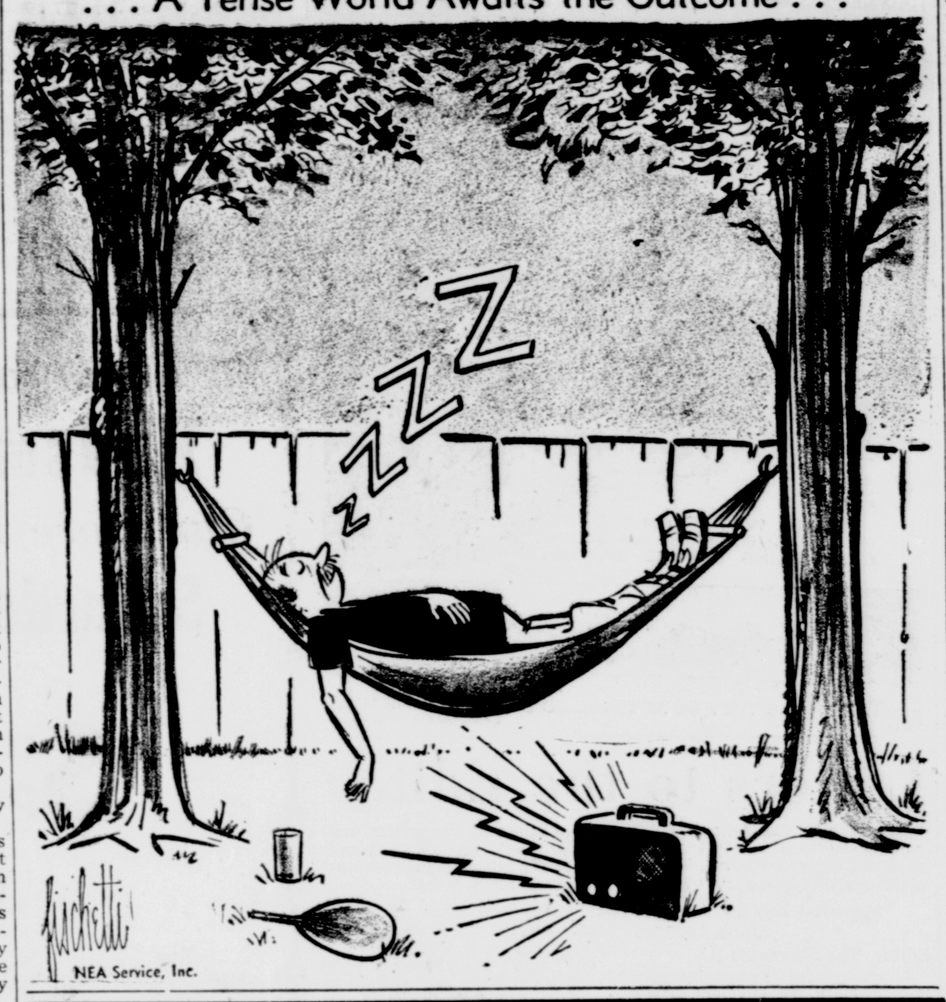
"... A Tense World Awaits the Outcome ..."



Edson's Washington News Notebook

BY PETER EDSON
NEA Washington Correspondent

Washington, (NEA)—A campaign to finance and force President Dwight D. Eisenhower to run for a second term of office has already been started among his White House staff.

This has been done somewhat on the q.t. Also, it was done without the President's knowledge or consent.

The news leaked out in Washington last week as a few members of the palace guard began to appear in public with little plastic pins in their coat lapel buttonholes reading "CLub." The bottom, horizontal line of the capital L extended below the smaller letters ub.

The first one was noticed gleaming on the dark blue suit of Gov. Harold Stassen, foreign operations administrator who soon becomes the unofficial Cabinet "Secretary of Peace."

ANOTHER PIN was worn by Homer H. Gruenther, assistant to the Assistant to the President, Gov. Sherman Adams, and a brother of NATO Commander in Chief Alfred M. Gruenther.

The civilian Gruenther was a little shy in explaining what the CLub pin was all about. He kissed it off with the comment, "Oh, it's just a little club that we have."

From Maj. Gen. Wilton B. Persons, deputy assistant to the President, came the first explanation. General Persons wasn't wearing his pin, explaining it was home on his other suit. But he belonged, he said, and so did most of the other members of the White House staff.

The correct, full name of the CLub, he explained, is "The 150 Club." Now this is neat, but it's also tricky, so follow closely.

"C" is the Roman numeral for 100, as every fourth grader should know. "L" is the Roman numeral for 50. "CL" is 150. Get it?

All right. Each cell, or CLub unit is supposed to have 150 members. Every member of the CLub—and here is the gimmick—is supposed to go out and start a unit of his own with another 150 members.

NOBODY KNOWS just how this thing started. Someone whose letter has now been conveniently lost—presumably the button manufacturer—sent in a flock of the CLub emblems and asked for a White House blessing. The original plan was to get $150 from each member. Nobody took that seriously.

The buttons finally ended up in the hands of one of the Filipino mess attendants at the White House. He started peddling them for $1.50 and sold out.

The arithmetic of this thing is terrific. The pins cost a cent apiece, so the profit on the first CLub of 150 members would be $224.50. One thousand CLubs would make $224,500. It would all supposedly be turned in to the Republican Finance Committee to help renominate Eisenhower.

But GOP headquarters say they never heard of the CLub and to date they have received no money.

General Persons, asked if Ike knew about this, said: "He probably doesn't. If he did, he'd give somebody hell."

This CLub idea is reminiscent of other trick schemes which have been thought up to finance political activities.

There was, for instance, President Franklin D. Roosevelt's "One Thousand Club," for the 1944 campaign. A thousand members were supposed to give $1000 apiece to raise one million dollars.

This goal was way too high. Only 291 members were ever signed up and some of them didn't give the full $1000.

IN THE 1948 CAMPAIGN, Beardsley Ruml, father of the pay-as-you-go income tax collection scheme and treasurer of the Democratic National Committee, dreamed up a political financing plan at a lower level.

He proposed that ordinary voters buy memberships in the party of their choice at $5 a head. He put it on the basis of being a civic duty to clean up campaign contributions.

If half of the 60 milion voters paid up, there would be 150 million dollars to divide between the two major parties. Conservatively, Ruml hoped he could get 400,000 Democrats to give $5 apiece, to raise two million dollars. But he never reached that goal.

The CIO Political Action Committee and the AFL Labor's League for Political Education have for some years worked on their 15 million or more members to give a dollar apiece to finance their campaigns.

The best they were ever able to do—in 1950—was to raise a little over one million dollars each. But they're still trying.

Maybe the Eisenhower CLub idea will catch on and do better.

The City Hall of Rimini, Italy

The Palazzo Communale (City Hall) of Rimini, Italy, was built around five arches which no one knew what to do with for 350 years. The arches were erected in 1204 for an unknown reason. They stood around for 3½ centuries and the city, having the choice of demolishing or using them, decided to build its communal palace or City Hall around them. They are now the five last arches on the right of the picture.

Today at 3-Power Conference

Foreign Ministers Try Guessing Goal of Reds

By DAVID LAWRENCE

An adventure in the realm of appraisal—guessing the Soviet mind—took up most of the time of the three Foreign Ministers at their sessions here. About all they could focus on was that the Communists probably have something very definite in view besides mere propaganda.

This is an accurate analysis because everything for several weeks has pointed to the strategy of the Soviets as aimed at achieving definite gains at the conference table and not just a point or two for further debate on the radio waves.

Certainly the Communists are after something definite. They want to isolate Germany and Austria and want the United States troops withdrawn from Europe. They would like to see the German people tempted by the bait of reunification so that no German troops will ever join the western defense. They would like to weaken the North Atlantic Treaty Organization, too. All this is part of a deliberate program.

What Messrs. Dulles, Pinay and Macmillan, representing the United States, France and Great Britain, are trying to do is to figure out some way to meet this unusual form of attack. Naturally the three foreign ministers are cautious. When they meet with Soviet Foreign Minister Molotov in San Francisco next week they will not try to settle anything except procedures — that is, how the Geneva conference of the four heads of state "at the summit" is to be conducted.

Thus far there is no formalized Agenda, which means that nature will have to take its course once the "summit" conference gets going. But already it is announced that in the three or four days of the historic four-power conference nothing is to be decided on the major issues except the manner in which these issues are to be tackled thereafter. Shall it be by the establishment of an agenda of subjects with special meetings of commissions to consider the pro and the con? Shall the United Nations be asked to take up some of the problems?

Certainly the four-power conference at Geneva will mention every subject that today tends to disturb the peace of the world and some one of the participants will urge that something be done about each. But it is too early to say whether anybody will come up with a solution for the simple reason that no one knows if the Soviets have in mind the removal of the basic causes of world unrest—their own aggressive operations throughout the western countries.

So the three foreign ministers after a long conference here have concluded that it is necessary to keep open minded and on the alert. Foreign Secretary Macmillan of Great Britain put it this way afterward in a public speech:

"There are signs of a new look in Communist policy, a certain reduction of tension, a greater flexibility. But really that makes it all the more difficult not to make mistakes . . .

"What this meeting should be is not the end but the beginning. It should be the beginning of a new and fruitful phase. The heads of government could take a broad survey of the field, however wide. They would not seek to reach final agreements, but rather to agree upon the scope and the problems to be solved and the methods by which agreements could eventually emerge. They would plan the outline of the work for the foreign secretaries to carry on. This in some cases might best be carried out by other international procedures, such as the United Nations."

Mr. Macmillan didn't say a word about "compromise" nor did he hint that another Yalta type conference was in the offing, as did Adlai Stevenson in his speech earlier this week. Mr. Macmillan is purposely vague because no one knows how much faith or trust can be put in the Communist proposals.

"The Daily Worker," Communist publication here, is of course all in favor of compromise and in an enthusiastic editorial Wednesday morning commends Adlai Stevenson for his speech and denounces Republicans who disagree as well as "some of Stevenson's own colleagues in Congress" for their skeptical attitude toward the Big Four conference.

Plainly the only safe attitude for the western statesmen to adopt toward the Russians is best expressed by old American slang: "You've got to show me."

Her patriotic writings have been vehement but she has never been charged with inciting violence, by contrast with a large collection of indications by union bosses to burn, pillage, [illegible]ains and beat and shoot citizens.

The New York Times is easily alarmed over the dismissal from a government job of any individual who associates with traitorous persons. That is "terrorism" which creates an "atmosphere of fear." But there is no "terrorism" in the persecution of Mrs. Miller.

In breaking the story of Wallace's idiotic letters to his Guru, I presented the opinion of Hamish McLaurin, one of our greatest authorities on Oriental philosophies and religions. He said Bubblehead's letters to Roerich wer silly gabble.

They were appalling screeds. The very idea that a man capable of putting such gibberish on paper could become vice president of the United States, especially in time of war, should frighten any American. Yet Frances Perkins wrote that Roosevelt himself picked Wallace by phone to her, and thousands who were present remember that the delegates there in Chicago were ready to stamp Wallace to death.

It was a terrible scene, Bugs Baer wrote that Jimmy Petrillo, a Democrat, of course, rushed a messenger upstairs to command the organist to strike up "Franklin D. Roosevelt Jones." The organist sent back word that his schedule called for some other tune just then. Bugs wrote that Petrollio then sent the messenger back to ask the organist how he would like two handfuls of smashed knuckles, so "Franklin D. Roosevelt Jones" blared forth. Within the last year both Chief Justice Earl Warren and Harry Truman have paid elaborate homage to Petrillo.

Notwithstanding those letters which were known to both Democrats and Republicans, Wallace served four years in wartime, within one heartbeat of the presidency of our country. Nobody ever set psychiatrists on him or tried to lock him up in St. Elizabeth's although his home, then, was only a few blocks away. For contrast note the campaign of "psychiatric" insinuations against Joe McCarthy by "analysts" who never met the man.

In 1948 when he was the candidate of the Communists for president on his own "progressive" ticket, I challenged Wallace at his "convention" of Reds in Philadelphia to say whether he wrote those goofy Guru letters. He refused to answer. But I can tell you this all right. He wrote them. He knows I can prove it and so does the New York Tiimes.

WITH NO INVITATION FROM THE WIFE

A wife writes me: "One of the men with whom my husband works has invited both my husband and me to spend a week with him and his wife at their summer place. My husband is all for going, but I do not think it would be proper for us to go without a message of some sort from his wife. The wife is a stranger to me and I met the man just once at my husband's office. Don't you agree that it would be wrong to go on his invitation alone?"

You are right. She should write a note to you seconding her husband's invitation. However, she may not know that this is expected of her and if your husband wants you to go, I would not advise you to be too formal and refuse.

Delayed Sympathy

Dear Mrs. Post: Is three months after a death too late to send a message of sympathy to one who has lost a member of her family? A friend of mine thinks it would be wrong to send it at this time as it would only be opening the wound anew. As I was away I could not send a message at that time. Will you please tell me if it would be proper to offer condolences at this time?

Answer: It is never too late to show sympathy. Write in your own handwriting across the card, "I have been away and have only now heard of your great loss" and sign it.

Mother and Daughter Signature

Dear Mrs. Post: Will you please tell me the proper way for mother and me to sign greeting cards and cards enclosed with gifts to people we both know? Mother is a widow and I am not married. We live together.

Answer: To those who call your mother by her first name, sign the cards "From Jane (your mother) and Lucy." To those who do not call her by her first name, you write "From Jane Smith and Lucy."

When should a gentleman offer his arm to the lady with him? This and many other manners in public questions are answered by Mrs. Post in leaflet P-15. Mrs. Post is sorry she cannot answer personal mail. To obtain a copy, send 10 cents in coin to Dept. EP, care of The Freeman, P.O. Box 99, Station G, New York 19, N. Y.

BABSON on BUSINESS

Babson Park, Mass., June 17 —So many readers are worrying about Formosa and China that at this time, when the "World's Biggest World" is being dedicated here, I take the liberty of discussing Asiatic problems. First, let me say that I have never met Chiang Kai-shek, but I have known Madame Chiang, who attended Wellesley College, which is only two miles from the Babson Great Globe and Institute. She is a remarkable woman of the highest character and keenest insight; she has great influence with him. He was a poor boy when he married her; but a determined type like the late Henry Ford and a very great man.

WHEN FORECASTING the future of any country, it is well to recognize the history as well as the present status. Formosa is a large island, about the size of Massachusetts and Connecticut, lying 100 miles east of China. A mountain range runs north and south, with fertile plains to the west. A combination of heat and moisture gives it marvelous crops; it produces gold, silver, copper, oil, coal, and uranium. Population is about 9,000,000, mostly of old Chinese descent.

This great island was originally settled by the Dutch, who were expelled by the Chinese during the seventeenth century. It was taken by the Japanese in 1895, who held it until the close of World War 2, when, in 1945, it was ceded back to China. Whatever our opinion as to the government of China — whether Nationalistic under Chiang Kai-shek, or Communistic under Chou and his gangsters — we must realize that Formosa inherently is a part of China. Whether the Communists want to "liberate" it or "enslave" it is debatable. From a strategic viewpoint, the United States and Japan should not now allow Formosa to get into the clutches of Communist China.

ONE OF THE CHIEF lessons I have learned from Madame Chiang Kai-shek is the importance of patience and of avoiding giving ultimatums. Human nature is the same on both sides of a conflict and if "the ball can be kept in the air" long enough most problems will solve themselves. Many serious problems are solved by leaders becoming older and finally dying. (Today's Bible reading is Psalms, 49th Chapter, which has given me the inspiration to write this column.)

To apply the above philosophy to the Formosa problem — it may be impossible to get a satisfactory settlement as long as Chiang Kai-shek is in the saddle. If, however, he should be removed by death or become incapacitated (he is about 70, and has had a hard life), I forecast that President Eisenhower could bring about a settlement which would both insure our position and "save face" for the Peking Government.

ALTHOUGH the present Big Four International Conference will probably amount to nothing and the possibility of World War III will be hanging over us for many years, yet the best advices are that World War III is not now to be feared. None of the big nations, including Russia and China, now want World War III; but the threat of using the H-Bomb will constantly be used to blackmail the democracies. With the cost of manufacturing H-Bombs constantly becoming less, every nation will have some, enabling revolutionary forces in these nations to get them. Some crazy dictator may try to conquer the world with them; but, if so, he would be quickly subdued. This would be an opportunity for the United Nations to fulfill its real mission.

All the above means that our defense program may gradually be curtailed and this federal money be used for the building of roads, hospitals, schools, and especially the new industry of urban redevelopment. Uranium oxide is being found almost everywhere, and could also help stave off the so-called "inevitable" depression. I still believe in the business cycle; but its duration is now determined by politics. Therefore, let us forget the troubles which we read so much about. Let us concentrate on our own business and make better products for less money and sell them all over the world. This is the most practical kind of patriotic service we can render.

Michael A. Prendergast, director of Division of Safety, State of New York, extended the greetings of Governor Averell Harriman to the convention, and commended the volunteers for their diligent service.

He also praised the administration of Anthony Delisio, retiring president of the association, and extended his congratulations to Chief Joseph L. Murphy, who will retire June 30. Chief Murphy, he said, had been dedicated to the life of a fireman, and his zeal in carrying out his duties was worthy of the highest praise.

STRESSING the need for additional training courses, and the importance of radio communications. Mr. Prendergast also elaborated on the importance of the firemen in the civil defense. "The volunteer firemen," he said, "are the ones who have to do the big job in civil defense."

He noted the importance of the Ground Observers Corps in civil defense since the radar system doesn't pick up low-flying planes.

EDWARD N. COOGAN of Pelham, chairman of the resolutions committee, reported that some 15 resolutions would be submitted to the delegates at today's session, though he said he expected none to be of a controversial nature. An invitation was also expected to be extended to the delegates this morning from a community for next year's convention.

Anthony Delisio was chairman for the Thursday afternoon session and the invocation was delivered by the Rev. James V. Keating of St. Joseph's Church.

FOLLOWING the business meeting floral pieces at the convention were sent to the Home for the Aged, and Chief Joseph L. Murphy placed a basket of flowers on the grave of Captain William J. Geary of the Kingston Fire Department who died November 10, 1954.

A dance for delegates and their friends was held at the Elks Club last night with music by Wendell Scherer's orchestra.

Ladies attending the convention assembled at the Governor Clinton Hotel this afternoon for a motor trop through the Catskill Mountains, with a visit scheduled at the art colony in Woodstock and the aerator at Ashokan Reservoir. They lunched at the Maverick Inn on the Onteora Trail.

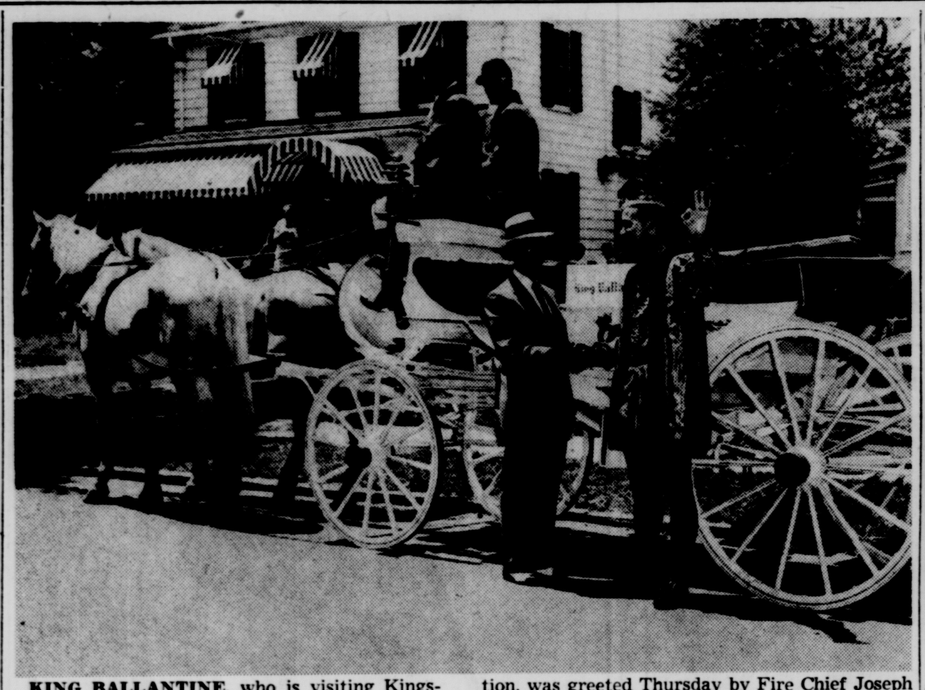
MEMBERS and delegates were scheduled to be entertained this afternoon by the local committee at the state armory on North Manor avenue, and a stage presentation featuring stage, radio and TV stars is slated for 8 o'clock this evening at the municipal auditorium.

The final meeting of the board of directors, followed by a reorganization meeting, will be held tonight at the Governor Clinton Hotel to conclude the convention's business activities.

The parade with nearly 10,000 marchers will step in line at 2 p. m., Saturday, and the subject of the weather was paramount in the hotel lobbies today as the weatherman predicted generally fair with scattered showers.

No Parking for Parade

A police reminder was issued today to remind all who attend tomorrow's parade they won't be able to park vehicles along the line of march from where it forms in Rondout to Dietz Stadium. The parade will go over sections of Albany and Clinton avenues, Main, Wall and North Front streets.



KING BALLANTINE, who is visiting Kingston in connection with the 66th annual convention of the Hudson Valley Firemen's Association, was greeted Thursday by Fire Chief Joseph L. Murphy of Kingston. (Ken Roosa photo)

Visitors Here For Duration Of Convention

Representing Ballantine Breweries, producers of beer and ale, King Ballantine with his full entourage arrived yesterday in Kingston for duration of the 66th annual convention of the Hudson Valley Firemen's Association.

The entourage includes two costumed coachmen, a pair of matched show horses and a white carriage made in London.

Frank McGerr, Ballantine manager for the Kingston district, announced that King Ballantine and his court will remain in the Kingston area for several days to "visit with Ballantine's old friends and to make new ones."

THE KING'S appearance in Kingston with his coachmen, horses and carriage — already well-known in Washington and in Florida—is the first in the Upper New York State area. During his visit, he has been interviewed for radio and television.

McGeer said that King Ballantine will remain in Kingston until at least the close of the firemen's convention and perhaps longer. From here, McGeer added, the king probably will go to other cities in this area for similar tours.

In visits with officials of the firemen's convention, King Ballantine disclosed that the production of Ballantine Breweries in Newark, operated by P. Ballantine & Sons, amounts now to more than 155 million gallons or sufficient to float the super-liner "United States," an aircraft carrier and 50 light destroyers. He told Chief Murphy:

"ONE OF THE purposes of my visit to Kingston is to invite all of you firemen, and anyone else in the Kingston area who can do so, to come and visit our plant in Newark.

"The Ballantine Breweries there, in addition to being the third largest brewery in the United States, also is considered one of the cleanest and most modern in the United States and visitors are always welcome to see how Ballantine beer and ale are made."

Ballantine Breweries was founded in 1840 and now employs several thousand persons. It has been in continuous operation since its founding, including the Prohibition period when it turned out malt syrup and similar products.

Briefly Told

MONTEVIDEO, Uruguay, June 17 —Roman Catholic 17 (AP) — Roman Catholic churches in Argentina were attacked by rioters climaxing yesterday's revolt against the regime of President Juan D. Peron.

This was confirmed indirectly today by Peron himself. In a broadcast to his countrymen, Peron blamed Communists for depredations against the churches and counseled priests to obey police orders.

He promised the government will not allow any further depredations against churches.

VATICAN CITY, June 17 (AP) Pope Pius XII today reaffirmed his goodwill for the Roman Catholic Clergy and people of Argentina.

The 79-year-old head of the church expressed his sentiments in a lengthy, quickly called private audience with the two Catholic prelates expelled by Argentine authorities.

The prelates, the Auxiliary Bishop of Buenos Aires, Msgr. Manuel Tato, and his assistant Msgr, Ramon Pablo Novao, were closeted with the pontiff in his Vatican apartment for one hour and 25 minutes.

LONDON, June 17 (AP) — Cunard Line officials chartered a fleet of planes today to carry more than 1,100 America-bound passengers stranded in Britain by a wildcat seamen's strike. The travelers will save at least $14 on the deal—plus the tips they won't have to pay.

The 1,500 strikers, who have tied up eight transatlantic liners and threaten to spread their walkout to the inbound Queen Elizabeth, were warned they face drafting into the army. Merchant seamen are exempt from the draft while at sea but can be called up if they go 14 days or more without a ship.

NEW YORK, June 17 (AP)—By a voice vote, 5,140 National Maritime Union members today shouted their approval of a new contract agreement, clearing the way for the end of a coastwide work stoppage.

The terms provide an unemployment benefit system for seamen. A meeting of the union sailors here, largest segment of the Galveston-to-Maine union, voted unanimous approval.

WASHINGTON, June 17 (AP)—In a big victory for President Eisenhower, the House has voted its approval of a transmission link between Dixon-Yates private power project and the Tennessee Valley Authority (TVA) system.

House blessing of the controversial project was nailed yesterday into a $1,372,122,800 public works appropriation bill passed by voice vote and sent to the Senate.

WEST PALM BEACH, Fla., June 17 (AP)—Rewards totalling $11,500 were offered today for the return of missing Circuit Judge C. E. Chillingworths and his wife.

Reed to Return Home

Rome, June 17 (AP)—Rep. Dan Reed, veteran New York Republican who suffered a heart attack in Rome April 18, plans to sail for home early in July. Dr. Gorgio Mattoli, Rome heart specialist, said today the 79-year-old congressman is "all right now," and is booking an early passage. C. T. Hunt Coming Home With Circus For Monday Date

CHARLES T. HUNT

Monday is not only circus day in Knigston, it's the homecoming of Charles T. Hunt to mingle with old neighbors and their boys who rode his ponies in earlier days of his long career as a showman.

Hunt Brothers Circus is scheduled to show in the afternoon and evening at Dietz Memorial Stadium under the auspices of the 50 Club of the Seventh ward, the organization of men devoted to promote events for and to raise money for entertaining the young fry of the city.

The club conducts an annual field day with prizes and refreshments on July 4 at Block Park as one of its major projects.

THOMAS COUGHLIN, former alderman of the ward, said "our club is proud to present the Hunt circus, because it is what we think one of the best traveling attractions, and because we all know Mr. Hunt."

Coughlin is one of the Seventh warders who knew the Hunt family when it resided on Hunter street, and wintered the circus stock at Brown's barn on Abeel street, near the old Lenahan boatyard.

CIRCUS FANS from far and near are expected to see the show, and many of them, no doubt, will make their annual visit for a handshake with Mr. Hunt, who always looks forward to playing Kingtson.

He fondly recalls his 1953 date here when a key to the city was presented in recognition of the fine record he has in show business.

Mr. Hunt proudly boasts that the circus he organized in 1892 has not missed a season on the road since then.

THIS YEAR the circus is sporting a brand new big top of unique design, utilizing steel cables entirely to replace the usual rope and cordage. And, for the convenience of the public and circus personnel, it is carrying a modern mobile comfort station on a specially designed trailer.

From a very modest start 63 years ago, Hunt Bros. Circus has now grown to the place where it is acknowledged and acclaimed as the leading motorized circue of the east, visiting communities up and down the Atlantic seaboard and vicinity from early April until late September.

THE 1955 PROGRAM has many new and novel features. They include Miss Aerialetta, queen of the high trapeze; Buddy, trained California sea-lion who has been a star in the movies and on TV; the Bogino troupe in their remarkable juggling act; Louie and Diane in a balancing number; Ronnie Rennes, the man who balances on one finger; the eight trained elephants, including baby Muna who joined the troupe in Kingston last year; and the famous Hunt Bros. liberty horses.

These and many more features are blended into a smooth running, swiftly paced performance.

The public is invited to the Stadium lot on Sunday to inspect the animals and equipment.

The circus committee from the 50 Club includes Frank Sass, Charles Diers, John Sass, Oscar Dahl, George Bunt, Form Coughlin and John Worf, who is chairman of tickets which he is selling at his restaurant, 91 Abeel street. They are also being handled at Tommy Maines' Sport Shop. Reports are that they are in brisk demand.

Michael A. Prendergast, director of Division of Safety, State of New York, extended the greetings of Governor Averell Harriman to the convention, and commended the volunteers for their diligent service.

He also praised the administration of Anthony Delisio, retiring president of the association, and extended his congratulations to Chief Joseph L. Murphy, who will retire June 30. Chief Murphy, he said, had been dedicated to the life of a fireman, and his zeal in carrying out his duties was worthy of the highest praise.

STRESSING the need for additional training courses, and the importance of radio communications. Mr. Prendergast also elaborated on the importance of the firemen in the civil defense. "The volunteer firemen," he said, "are the ones who have to do the big job in civil defense."

He noted the importance of the Ground Observers Corps in civil defense since the radar system doesn't pick up low-flying planes.

EDWARD N. COOGAN of Pelham, chairman of the resolutions committee, reported that some 15 resolutions would be submitted to the delegates at today's session, though he said he expected none to be of a controversial nature. An invitation was also expected to be extended to the delegates this morning from a community for next year's convention.

KING BALLANTINE, who is visiting Kingston in connection with the 66th annual convention of the Hudson Valley Firemen's Association, was greeted Thursday by Fire Chief Joseph L. Murphy of Kingston. (Ken Roosa photo)

Visitors Here For Duration Of Convention

Representing Ballantine Breweries, producers of beer and ale, King Ballantine with his full entourage arrived yesterday in Kingston for duration of the 66th annual convention of the Hudson Valley Firemen's Association.

The entourage includes two costumed coachmen, a pair of matched show horses and a white carriage made in London.

Frank McGerr, Ballantine manager for the Kingston district, announced that King Ballantine and his court will remain in the Kingston area for several days to "visit with Ballantine's old friends and to make new ones."

THE KING'S appearance in Kingston with his coachmen, horses and carriage — already well-known in Washington and in Florida—is the first in the Upper New York State area. During his visit, he has been interviewed for radio and television.

McGeer said that King Ballantine will remain in Kingston until at least the close of the firemen's convention and perhaps longer. From here, McGeer added, the king probably will go to other cities in this area for similar tours.

In visits with officials of the firemen's convention, King Ballantine disclosed that the production of Ballantine Breweries in Newark, operated by P. Ballantine & Sons, amounts now to more than 155 million gallons or sufficient to float the super-liner "United States," an aircraft carrier and 50 light destroyers. He told Chief Murphy:

"ONE OF THE purposes of my visit to Kingston is to invite all of you firemen, and anyone else in the Kingston area who can do so, to come and visit our plant in Newark.

"The Ballantine Breweries there, in addition to being the third largest brewery in the United States, also is considered one of the cleanest and most modern in the United States and visitors are always welcome to see how Ballantine beer and ale are made."

Ballantine Breweries was founded in 1840 and now employs several thousand persons. It has been in continuous operation since its founding, including the Prohibition period when it turned out malt syrup and similar products.

Briefly Told

MONTEVIDEO, Uruguay, June 17 —Roman Catholic 17 (AP) — Roman Catholic churches in Argentina were attacked by rioters climaxing yesterday's revolt against the regime of President Juan D. Peron.

This was confirmed indirectly today by Peron himself. In a broadcast to his countrymen, Peron blamed Communists for depredations against the churches and counseled priests to obey police orders.

He promised the government will not allow any further depredations against churches.

VATICAN CITY, June 17 (AP) Pope Pius XII today reaffirmed his goodwill for the Roman Catholic Clergy and people of Argentina.

The 79-year-old head of the church expressed his sentiments in a lengthy, quickly called private audience with the two Catholic prelates expelled by Argentine authorities.

The prelates, the Auxiliary Bishop of Buenos Aires, Msgr. Manuel Tato, and his assistant Msgr, Ramon Pablo Novao, were closeted with the pontiff in his Vatican apartment for one hour and 25 minutes.

LONDON, June 17 (AP) — Cunard Line officials chartered a fleet of planes today to carry more than 1,100 America-bound passengers stranded in Britain by a wildcat seamen's strike. The travelers will save at least $14 on the deal—plus the tips they won't have to pay.

The 1,500 strikers, who have tied up eight transatlantic liners and threaten to spread their walkout to the inbound Queen Elizabeth, were warned they face drafting into the army. Merchant seamen are exempt from the draft while at sea but can be called up if they go 14 days or more without a ship.

NEW YORK, June 17 (AP)—By a voice vote, 5,140 National Maritime Union members today shouted their approval of a new contract agreement, clearing the way for the end of a coastwide work stoppage.

The terms provide an unemployment benefit system for seamen. A meeting of the union sailors here, largest segment of the Galveston-to-Maine union, voted unanimous approval.

WASHINGTON, June 17 (AP)—In a big victory for President Eisenhower, the House has voted its approval of a transmission link between Dixon-Yates private power project and the Tennessee Valley Authority (TVA) system.

House blessing of the controversial project was nailed yesterday into a $1,372,122,800 public works appropriation bill passed by voice vote and sent to the Senate.

WEST PALM BEACH, Fla., June 17 (AP)—Rewards totalling $11,500 were offered today for the return of missing Circuit Judge C. E. Chillingworths and his wife.

The family designated the Rev. Harry H. Waller, pastor of the First Methodist Church, as intermediary, indicating a belief the wealthy and highly respected couple may have been kidnaped.

Reed to Return Home

Rome, June 17 (AP)—Rep. Dan Reed, veteran New York Republican who suffered a heart attack in Rome April 18, plans to sail for home early in July. Dr. Gorgio Mattoli, Rome heart specialist, said today the 79-year-old congressman is "all right now," and is booking an early passage. Reed has been walking in the gardens of the Little Company of Mary Hospital here for the past 13 days. When first admitted to the hospital he was in serious condition.

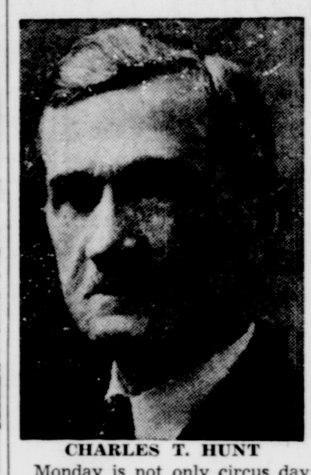
C. T. Hunt Coming Home With Circus For Monday Date



CHARLES T. HUNT

Monday is not only circus day in Knigston, it's the homecoming of Charles T. Hunt to mingle with old neighbors and their boys who rode his ponies in earlier days of his long career as a showman.

Hunt Brothers Circus is scheduled to show in the afternoon and evening at Dietz Memorial Stadium under the auspices of the 50 Club of the Seventh ward, the organization of men devoted to promote events for and to raise money for entertaining the young fry of the city.

The club conducts an annual field day with prizes and refreshments on July 4 at Block Park as one of its major projects.

THOMAS COUGHLIN, former alderman of the ward, said "our club is proud to present the Hunt circus, because it is what we think one of the best traveling attractions, and because we all know Mr. Hunt."

Coughlin is one of the Seventh warders who knew the Hunt family when it resided on Hunter street, and wintered the circus stock at Brown's barn on Abeel street, near the old Lenahan boatyard.

CIRCUS FANS from far and near are expected to see the show, and many of them, no doubt, will make their annual visit for a handshake with Mr. Hunt, who always looks forward to playing Kingtson.

He fondly recalls his 1953 date here when a key to the city was presented in recognition of the fine record he has in show business.

Mr. Hunt proudly boasts that the circus he organized in 1892 has not missed a season on the road since then.

THIS YEAR the circus is sporting a brand new big top of unique design, utilizing steel cables entirely to replace the usual rope and cordage. And, for the convenience of the public and circus personnel, it is carrying a modern mobile comfort station on a specially designed trailer.

From a very modest start 63 years ago, Hunt Bros. Circus has now grown to the place where it is acknowledged and acclaimed as the leading motorized circue of the east, visiting communities up and down the Atlantic seaboard and vicinity from early April until late September.

THE 1955 PROGRAM has many new and novel features. They include Miss Aerialetta, queen of the high trapeze; Buddy, trained California sea-lion who has been a star in the movies and on TV; the Bogino troupe in their remarkable juggling act; Louie and Diane in a balancing number; Ronnie Rennes, the man who balances on one finger; the eight trained elephants, including baby Muna who joined the troupe in Kingston last year; and the famous Hunt Bros. liberty horses.

These and many more features are blended into a smooth running, swiftly paced performance.

The public is invited to the Stadium lot on Sunday to inspect the animals and equipment.

The circus committee from the 50 Club includes Frank Sass, Charles Diers, John Sass, Oscar Dahl, George Bunt, Form Coughlin and John Worf, who is chairman of tickets which he is selling at his restaurant, 91 Abeel street. They are also being handled at Tommy Maines' Sport Shop. Reports are that they are in brisk demand.

in 1898 by Mr. and Mrs. Daniel Preston and Ezra Fitch. A short time later the Prestons purchased the Fitch interest and continued operation of the hotel in that family for many years. C. R. Morris took over until Dec. 31, 1948, when it was sold to Sidney Treinkman of Richmond Hill.

JACOBY ON BRIDGE

Who Is to Blame For This Pickle?

By OSWALD JACOBY
Written for NEA Service

"Please settle an argument for us," writes a California bridge fan. "Who is to blame for the pickle we got into in the accompanying hand? Is the double of four spades clearly and unmistakably for business, or is it at least partly for takeout?

"When the hand came along, South maintained that North couldn't possibly have very good trump tricks in the position under East. He decided that North was bound to have most of his strength in the other suits, in which case the double was as much for takeout as for penalties.

"When South bid five diamonds, West doubled crisply. Everybody passed, and West led the ace of hearts and continued with a low heart for his partner to ruff. East returned the ace of spades, South ruffed, and West overruffed. West now led the ace and a low diamond.

"South tried to hold it to down three, but he eventually lost a heart and a trump to West, for a penalty of 1100 points. By this time, of course, it was clear that East would have been set one or two tricks at four spades, depending on how accurately we defended. The bid of five diamonds thus cost us either 1300 or 1600 points.

"Should North pass instead of doubling four spades? If North does double, should South bid or pass?"

The double was clearly meant for business. What's more it was a perfectly reasonable double. If North wanted a takeout he would bid four no-trump instead of doubling.

South was right in assuming that his partner had ample strength in the side suits, but wrong in assuming that this strength would be enough to support a contract for eleven tricks opposite South's miserable hand. South would take the double out with a very good long suit of his own, but otherwise was expected to pass and accept a penalty.

JACOBY ON BRIDGE

Who Is to Blame For This Pickle?

By OSWALD JACOBY
Written for NEA Service

"Please settle an argument for us," writes a California bridge fan. "Who is to blame for the pickle we got into in the accompanying hand? Is the double of four spades clearly and unmistakably for business, or is it at least partly for takeout?

"When the hand came along, South maintained that North couldn't possibly have very good trump tricks in the position under East. He decided that North was bound to have most of his strength in the other suits, in which case the double was as much for takeout as for penalties.

"When South bid five diamonds, West doubled crisply. Everybody passed, and West led the ace of hearts and continued with a low heart for his partner to ruff. East returned the ace of spades, South ruffed, and West overruffed. West now led the ace and a low diamond.

"South tried to hold it to down three, but he eventually lost a heart and a trump to West, for a penalty of 1100 points. By this time, of course, it was clear that East would have been set one or two tricks at four spades, depending on how accurately we defended. The bid of five diamonds thus cost us either 1300 or 1600 points.

"Should North pass instead of doubling four spades? If North does double, should South bid or pass?"

The double was clearly meant for business. What's more it was a perfectly reasonable double. If North wanted a takeout he would bid four no-trump instead of doubling.

South was right in assuming that his partner had ample strength in the side suits, but wrong in assuming that this strength would be enough to support a contract for eleven tricks opposite South's miserable hand. South would take the double out with a very good long suit of his own, but otherwise was expected to pass and accept a penalty.

Winners Named At Annual KHS Awards Assembly

Approximately one-third of the members of this year's graduating class at Kingston High School were recognized at the annual Awards Assembly recently either through scholarships, prizes or award pins donated by Student Council.

At the same time fitting recognition was given to Principal Theron L. Culver and four teachers retiring this month, as well as to this year's Student Council officers. Parents of the prize winners and several members of the Board of Education attended the assembly.

IN OPENING the Assembly Principal Culver stressed the facts that the awarding of prizes to outstanding seniors was one of the pleasant tasks to which he looked forward each year. In several instances representatives of the organizations donating the prizes assisted Mr. Culver by making the awards. These included Mrs. G. Herbert DeKay, DAR; Mrs. Schleede, Junior DAR; Mrs. John L. MacKinnon, Musical Society of Kingston; the Rev. Clarance Brown, American Legion; James Devine, Veterans of Foreign Wars and Miss Blanche Kirshenblum, B'nai B'rith.

Mr. Culver paid a fitting tribute to Mrs. Christina Flisser, Miss L. May Quimby, Mrs. Mildred Peet and Mrs. Hazel Townsend who will retire this June. Bob Maines, president of Student Council, then presented gifts of appreciation to these teachers as well as special gifts to Mr. Culver, who is also retiring this month, and to Miss Quimby, Student Council advisor.

Margaret Danford, also representing Student Council, presented the four officers: president, Bob Maines; vice president, Clifford Miller; secretary, Nancy Ellsworth and treasurer, Marilyn Johnson—with a wallet and key holder set in appreciation of their faithful service to the organization.

Production Hits All-Time High For This Summer

New York, June 17 (AP)—Business nears the official start of summer humming a prosperity tune.

Industry output is at an all-time high—says the federal reserve board, after adjusting its index to the weather.

Retail sales are running eight per cent higher than a year ago.

Construction activity — also after being adjusted for seasonal influences—is at a record high and one-eighth larger than last year.

THE COMING of hot weather is pushing electric power output to an all-time high. It was within a whisker of it last week. The Edison Electric Institute says that as summer approaches the use of electricity for air conditioning is rising and a new record in electricity production is probably just days away.

Refineries are turning ou 26 million barrels of gasoline a week now. But American motorists are using more than that. The American Petroleum Institute reports that while gasoline production went up one million barrels last week, the stocks on hand dropped by nearly three million barrels.

The coming of summer finds American families eating well. The U. S. Department of Agriculture says that total meat production currently is running three per cent above a year ago. Beef production is even higher relatively. Last week it topped 205 million pounds, compared with 191 million pounds in the similar week of last year.

COFFEE DRINKING is on the increase, according to the Pan-American Coffee Bureau. It says a recent nationwide survey shows the average American of coffee-drinking age downs 2.67 cups a day. Last year he stopped a few drops short of that, at 2.60 cups a day.

Rising incomes are given the credit for all the buying and consuming. Average weekly factory earnings have touched a new high of $76.11, about $5 ahead of a year ago. Employment has been rising and unemployment dropping.

Summer's onslaught may change some of this pleasant picture. While Americans will use more gasoline and electricity for travel and comfort, they'll stop producing as much in the factories during the vacation days ahead.

THE FEDERAL Reserve Board adjusts its index of industrial production to fit the seasons. For example, it will make allowance for the closing of factories for mass vacations. Each year more workers get these holidays from work, and each year the average vacation in industry gets a little longer.

Industrial output is expected to slough off a little in May and June from its April peak. And the Federal Reserve's index must be read with that in mind.

Actual (unadjusted) production was one point lower on the index in May than it had been in April. But the board expects industrial output to drop more than that between April and May, and adjust its index accordingly.

THIS PROSPEROUS May industrial production relaxed less than usual, and so the adjusted index rose to its all-time high of 138—which is one point above the previous record scored in May and July of 1953. The index figure means that industrial output stands at 138 per cent of the 1947-49 average.

But the path of business is never without some thorns. Not only will hot weather probably take its usual toll, but bankers meeting in Lake Placid, N. Y., for the annual parley of the New York State Bankers Assn. predict that as business demands for bank loans expands this summer in preparation for the fall revival, businessmen will have to pay more for loans.

Credit terms for autos and houses may be less easy, too, the bankers warn.

Fascinating Book

Marco Polo, while a prisoner in Genoa, Italy, dictated a detailed account of his wanderings and observations to a fellow prisoner, Rusticiano The book is the most fascinating of early travel works.

Plan Banking Survey

Lake Placid, N. Y., June 17 (AP)—New York University's Graduate School of Business Administration is to conduct a study of banking in New York state. The New York State Bankers' Assn. will sponsor the survey to "determine the adequacy, or lack of it," of banking facilities in the state and to find new avenues of services.

It is estimated there is a traffic accident every three seconds, on the average in the United States.

Production Hits All-Time High For This Summer

New York, June 17 (AP)—Business nears the official start of summer humming a prosperity tune.

Industry output is at an all-time high—says the federal reserve board, after adjusting its index to the weather.

Retail sales are running eight per cent higher than a year ago.

Construction activity — also after being adjusted for seasonal influences—is at a record high and one-eighth larger than last year.

THE COMING of hot weather is pushing electric power output to an all-time high. It was within a whisker of it last week. The Edison Electric Institute says that as summer approaches the use of electricity for air conditioning is rising and a new record in electricity production is probably just days away.

Refineries are turning ou 26 million barrels of gasoline a week now. But American motorists are using more than that. The American Petroleum Institute reports that while gasoline production went up one million barrels last week, the stocks on hand dropped by nearly three million barrels.

The coming of summer finds American families eating well. The U. S. Department of Agriculture says that total meat production currently is running three per cent above a year ago. Beef production is even higher relatively. Last week it topped 205 million pounds, compared with 191 million pounds in the similar week of last year.

COFFEE DRINKING is on the increase, according to the Pan-American Coffee Bureau. It says a recent nationwide survey shows the average American of coffee-drinking age downs 2.67 cups a day. Last year he stopped a few drops short of that, at 2.60 cups a day.

Rising incomes are given the credit for all the buying and consuming. Average weekly factory earnings have touched a new high of $76.11, about $5 ahead of a year ago. Employment has been rising and unemployment dropping.

Summer's onslaught may change some of this pleasant picture. While Americans will use more gasoline and electricity for travel and comfort, they'll stop producing as much in the factories during the vacation days ahead.

THE FEDERAL Reserve Board adjusts its index of industrial production to fit the seasons. For example, it will make allowance for the closing of factories for mass vacations. Each year more workers get these holidays from work, and each year the average vacation in industry gets a little longer.

Industrial output is expected to slough off a little in May and June from its April peak. And the Federal Reserve's index must be read with that in mind.

Actual (unadjusted) production was one point lower on the index in May than it had been in April. But the board expects industrial output to drop more than that between April and May, and adjust its index accordingly.

THIS PROSPEROUS May industrial production relaxed less than usual, and so the adjusted index rose to its all-time high of 138—which is one point above the previous record scored in May and July of 1953. The index figure means that industrial output stands at 138 per cent of the 1947-49 average.

But the path of business is never without some thorns. Not only will hot weather probably take its usual toll, but bankers meeting in Lake Placid, N. Y., for the annual parley of the New York State Bankers Assn. predict that as business demands for bank loans expands this summer in preparation for the fall revival, businessmen will have to pay more for loans.

Credit terms for autos and houses may be less easy, too, the bankers warn.

Fascinating Book

Marco Polo, while a prisoner in Genoa, Italy, dictated a detailed account of his wanderings and observations to a fellow prisoner, Rusticiano The book is the most fascinating of early travel works.

Why We Say--

The original "Mother Goose" was Elizabeth Foster who was born in 1665. She married Isaac Goose in 1692 and a few years later became "Mother" Goose. Mrs. Goose made up stories for her grandchildren and a book of the stories was published in Boston.

Plan Banking Survey

Lake Placid, N. Y., June 17 (AP)—New York University's Graduate School of Business Administration is to conduct a study of banking in New York state. The New York State Bankers' Assn. will sponsor the survey to "determine the adequacy, or lack of it," of banking facilities in the state and to find new avenues of services.

It is estimated there is a traffic accident every three seconds, on the average in the United States.

Observation Pays Off

Johnson City, N. Y., June 17 (AP) — While Sheriff Howard O. Searles of Tioga county was in an Owego bank last week, he noticed a man pick up a stack of blank checks. Curious, Searles jotted down the license number of the mans' automobile. The observation led to the arrest of Clarence E. Haywood, 30, of Elmira Heights, who was to be arraigned today on a charge of forging a check. Wilson Memorial Hospital informed Johnson City police that a $135 check it had received in payment of a bill had turned out to be worthless. It was drawn on an Owego bank.

Remain Hero to Son, Is Good Advice to Father

By HAL BOYLE

New York (AP)—Is a man a hero to his son on Father's Day?

If he isn't, then no family gift of necktie, belt or robe, will have meaning to him. He has to be king of the hill to his boy or the day is a mockery.

Dad is to be looked up to. His nature and the structure of the family require it. If he isn't looked up to, then the family's in a bad way.

But being a father is a puzzling job. You do so much for the kids . . . and the kids take it for granted . . . but what do they really know about you . . . and what do you really know about them?

ONE WAY TO STAY a hero to your son is never to do anything a hero wouldn't do. Considering the frailty of flesh and fathers, that's nigh impossible. The human way (and this is possible) is for a dad to live so that his boy is proud of him—and never do anything deliberately to hurt the boy's pride in being his son.

The moment of questioning does have to come, of course, by the natural laws of living.

Sooner or later a boy whose mistakes have been pointed out to him by his father makes a landmark discovery—his father can be wrong, too. Authority can err.

This is a big thing in a boy's lifetime—the first time he catches a parent violating a code the boy believes in—and he remembers it forever. How it affects him depends on what came before, the tolerance his parents showed him. Or the lack of tolerance.

I REMEMBER a time when my dad, who now gets a wreath of flowers for Father's Day used to like to go hunting on the only afternoon of the week he didn't work.

He had four sons and two dogs, and since he was a family man and loved us all he took us all along. He carried the only gun. Boys and dogs had the fun of seeing who could flush up the first rabbit or quail, and it was fun. The boys got a big kick out of showing, now and again, we could start up more game than those big-mouthed beagles.

But one winter day nothing moved but us, hour after hour. Dad, who was a splendid shot, became restless for lack of targets.

WE STARTED back to the car. We met a farm boy carrying a small coop of pigeons. Dad asked what he wanted for them and the boy said 15 cents apiece and dad said go ahead and let them loose, one at a time.

I stood there in silence as he shot and he didn't miss many. Neither the farm boy nor dad, who had run a trapline at the age of 10, thought there was anything wrong. But I had never seen my father fire at a sitting rabbit or a standing quail. And for the first time in my life I was against my father and in favor of something else—the pigeons he was firing at.

WHEN IT WAS OVER, we started on again toward the car. Always before we had brought back and eaten the game from our hunts—rabbit, quail or squirrel. The beagles ran up and sniffed at the fallen pigeons, but we didn't take them home.

I walked with my face turned away from my father.

"What's the matter, son?" he asked, puzzled.

"Nothing, dad."

How could I put into words what I felt? He had shown a fault in my eyes, the first fault, the one a boy always remembers.

He was still my dad, and because he had always been kind before and always was kind in a time of need later, it really didn't make any difference between us.

He remained my hero — he still remains my hero more than 30 years after that wintry day in the woods—but his halo had gained a tarnish, and I found that a boy must learn also to love his father as a human being.

More for Commerce

Washington, June 17 (AP)—The Senate, adding 193 million dollars to the House-approved figure, has voted $1,317,000,000 to operate the Commerce Department during the year starting July 1. Before passing the measure by voice vote yesterday, the Senate rejected efforts to cut airline and ship construction subsidies back to the amounts voted by the House, and approved other increases recommended by its own appropriations commitee. A Senate-House Conference Committee will be named to work out the differences.

Back Atom Vessels

Washington, June 17 (AP)—The top Democratic and Republican members of the House Merchant Marine Committee backed a proposal today to build both President Eisenhower's atom-driven peace ship and an atomic-powered merchant vessel. Both Chairman Bonner (D-N.C.) and Rep. Tollefson (R-Wash.), the senior minority member, also displayed greater optimism over the prospects for atomic merchant vessels than was shown in a committee report yesterday.

Magician, 71, Dies

Hollywood, June 17 (AP)—Harry A. Jansen—Dante the Magician—is dead at the age of 71. Jansen, veteran of circuses, vaudeville, radio, movies and television, died of a heart attack yesterday at his ranch in nearby Northridge. In recent years he operated a small factory there, turning out paraphernalia for other magicians. He came to the U. S. from his native Denmark at the age of 6.

Heads Pharmacists

Saranac Lake, N. Y., June 17 (AP)—Calvin Berger of New York city is the new president of the New York State Pharmaceutical Assn. Berger, who succeeds Michael M. Perhach of Binghamton, was elected yesterday at the group's 77th aunual convention. Hugh L. Mowen of Ithaca was chosen honorary president.

Utah Tornado

Fayette, Utah, June 17 (AP)—A tornado, only the sixth reported in Utah's history, swirled down on Fayette yesterday, leaving damage estimated at more than $1,000. No injuries were reported.

Cuban Editor Arrested

Havana, Cuba, June 17 (AP)—Police arrested Luis Orlando Rodriguez, editor of the newspaper La Calle, last night and took over the paper's office. A member of the opposition orthodox faction, Rodriquez recently had published articles government officials said were "offensive to the armed forces."

Hedy's Jewels Back

Houston, June 17 (AP)—Actress Hedy Lemarr said yesterday that the $51,000 worth of jewels which disappeared from her home here about three weeks ago had reappeared. Oilman W. Howard Lee, the actress' husband, told police the gems were found on a sewing room shelf yesterday. They were all there, he said, in a satin bag. Miss Lamarr reported the loss May 25 when she told police the jewelry vanished from a dressing table drawer.

WE STARTED back to the car. We met a farm boy carrying a small coop of pigeons. Dad asked what he wanted for them and the boy said 15 cents apiece and dad said go ahead and let them loose, one at a time.

I stood there in silence as he shot and he didn't miss many. Neither the farm boy nor dad, who had run a trapline at the age of 10, thought there was anything wrong. But I had never seen my father fire at a sitting rabbit or a standing quail. And for the first time in my life I was against my father and in favor of something else—the pigeons he was firing at.

WHEN IT WAS OVER, we started on again toward the car. Always before we had brought back and eaten the game from our hunts—rabbit, quail or squirrel. The beagle s ran up and sniffed at the fallen pigeons, but we didn't take them home.

I walked with my face turned away from my father.

"What's the matter, son?" he asked, puzzled.

"Nothing, dad."

How could I put into words what I felt? He had shown a fault in my eyes, the first fault, the one a boy always remembers.

He was still my dad, and because he had always been kind before and always was kind in a time of need later, it really didn't make any difference between us.

He remained my hero — he still remains my hero more than 30 years after that wintry day in the woods—but his halo had gained a tarnish, and I found that a boy must learn also to love his father as a human being.

More for Commerce

Washington, June 17 (AP)—The Senate, adding 193 million dollars to the House-approved figure, has voted $1,317,000,000 to operate the Commerce Department during the year starting July 1. Before passing the measure by voice vote yesterday, the Senate rejected efforts to cut airline and ship construction subsidies back to the amounts voted by the House, and approved other increases recommended by its own appropriations commitee. A Senate-House Conference Committee will be named to work out the differences.

Back Atom Vessels

Washington, June 17 (AP)—The top Democratic and Republican members of the House Merchant Marine Committee backed a proposal today to build both President Eisenhower's atom-driven peace ship and an atomic-powered merchant vessel. Both Chairman Bonner (D-N.C.) and Rep. Tollefson (R-Wash.), the senior minority member, also displayed greater optimism over the prospects for atomic merchant vessels than was shown in a committee report yesterday.

Hollywood, June 17 (AP)—Harry A. Jansen—Dante the Magician—is dead at the age of 71. Hedy's Jewels Back

Houston, June 17 (AP)—Actress Hedy Lemarr said yesterday that the $51,000 worth of jewels which disappeared from her home here about three weeks ago had reappeared. Oilman W. Howard Lee, the actress' husband, told police the gems were found on a sewing room shelf yesterday. They were all there, he said, in a satin bag. Miss Lamarr reported the loss May 25 when she told police the jewelry vanished from a dressing table drawer.

Subway Grill, Rapp's, Skyline, Chez Emile Cop Softball Games

Home Run Spree Gives Grillmen 16-5 Victory

Subway Grill bounced back from a recent upset to rout Krovan, 16 to 5, with a rash of extra base hits yesterday.

Chez Emile whipped Gene's Bar and Grill, 9-5; Fuller Skyline won over Kaplan Bag, 10-4; and Rapp's Express beat Cherny's, 8-5.

TOM SPADA and Al Hunt scattered 10 Krovan safeties, while the Subways pounded Canavan, Knight and Savino for 19 assorted blows.

Less Barringer stroked four singles for the winners. Tommy Maines belted a triple and homer. Bob Schatzel homered and added two singles. F. Fede, F. Spada and Tom Spada also came up with a brace of safeties, Fede homering.

Matty Weishaupt stroked three singles for Krovan. Berardi rapped a single and homer and Krom and Canavan also came up with two hits.

JOE ENRIGHT pitched 4-hit ball and Chez Emile backed him with a 15-hit assault on Don Dyson as Chez Emile romped. Enright had only one bad inning—the sixth—when Gene's scored four runs but Chezzies were leading 9-1 at the time.

Fred Schryver belted a trio of singles for Chezzies, with H. Embree, B. Scheffel, George Magley, Joe McGrane and J. Gallagher hitting safely twice each. George Glaser's double was the only extra base blow of the game.

Eddie Low checked Kaplan Bag on seven hits, one a homer by T. Deland, while Fullers accumulated 16 off Danny Basch.

HUYLER VAN WAGENEN poled three singles and a triple. Howie Brooks connected for a single, double and triple and Butch Tomaseskie unloaded three singles for Skyline. Deland and Don Beesmer had two hits apiece for Kaplan.

Rapp's Express rallied for four runs in the sixth for an 8-5 decision over Cherny's. It was 4-4 at the time of the eruption.

BILL SINSABAUGH powered three singles and Charlie Farley and Bill Martini hit two apiece for Rapp's. A. Crookson poled a single and triple for Cherny's. G. Winters and Wallace stroked doubles off J. Massuccio, the winning pitcher.

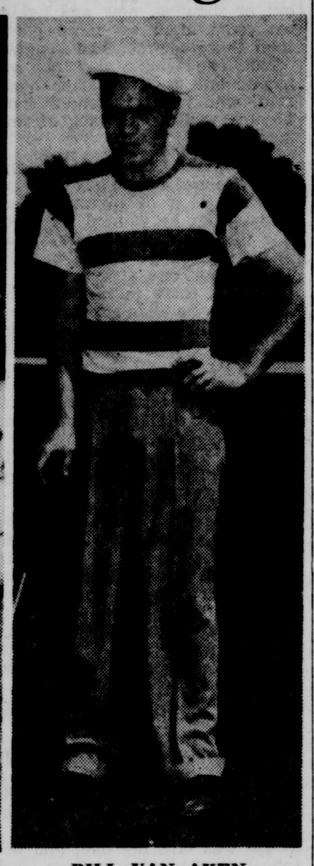
Nothing To It

New York—(NEA)—When he won the heavyweight championship, Bob Fitzsimmons left a record that still stands. His 158 pounds is the lightest a heavy champ ever weighed.

Former Champs in Herdegen

DUBBY RAICHLE

GEORGE HUGHES



BILL VAN AKEN

These three topnotch area golfers are among the favorites in the Father Herdegen Memorial golf tournament this year. In usual order, Clarence Dubby Raichle, 1952 winner; George Hughes, two-time winner in 1951 and 1954 and Bill Van Aken, who won in 1953 at Twaalfskill. Hughes hold the tournament's 72-hole record of 286 set last year on four county courses.

The defending champion Sprague Electric Dodgers of the American Little League keep that winning touch.

The Dodgers can win the close ones when they have to, or come up with a brilliant pitching performance when the opposition gets rugged.

LIKE YESTERDAY, when Ronnie Secreto had to unfurl a 3-hitter to check the Lions Club Yankees, 1 to 0. Secreto was excellent, issuing four passes and fanning 11. But Frank Fay of the Yankees was almost as good. Frank permitted only four hits, two of them coming in the fourth when the Dodgers scored the only run of the game. He struck out 8 batters.

Ronnie Thomas poled two singles and Gary Barnes and Wayne Elmendorf hit doubles for the Dodgers.

Joe Stopski, Walt Daw and Fay collected the Yankee safeties.

45 Players Set In County Golf

Forty five of Ulster county's best golfers tee off in quest of the Father Herdegen Memorial crown, symbolic of the county amateur title, in the fifth annual tournament that gets underway Saturday at 12 noon at the Woodstock Country Club.

Heading the brilliant field for the 54-hole medal marathon is two-time champion, George Hughes of Twaalfskill.

TWO OTHER former winners—Clarence "Dubby" Raichle of Twaalfskill and Bill Van Aken of the host club—will be seeking their second crowns.

The tournament switches to the Shawangunk club at Ellenville on Saturday, June 25, with the finals scheduled at Twaalfskill on Sunday, June 26.

Virtually all of the "name" players in the area and the current club champions are in the field. The list includes Bill Van Aken of Woodstock; Tim Bilyeu of Shawangunk, Bob Daley of Wiltwyck and Alvin Boice of Twaalfskill.

GENERALLY REGARDED as the "Ben Hogan" of Ulster county, Hughes is the man to beat, as always. In the past four tournaments he won twice and was runnerup in his two other starts.

But Hughes can expect strong opposition from old standbys like Van Aken, who might get a flying start on his home course; Alvin Boice, who will be seeking the only title to elude him in the area; Roy Vogt, Allen and Bill Waterous of Woodstock and Jim Oulton, Twaalfskill youngster whom many rate the "dark horse" of the tournament.

A newcomer to area golf, John T. Burych of the Hercules company, makes his debut with impressive credentials.

The low 21 players after 36 holes of medal play will qualify for the finals at Twaalfskill.

Helfand Wants Moore-Marciano

Summit, N. J., June 17 (AP)—If Archie Moore beats Bobo Olso soundly next Wednesday, he'll have a strong backer for a September shot at Rocky Marciano's heavyweight title in the person of Julius Helfand, chairman of the New York State Athletic Commission.

Helfand visited the light heavyweight champ's training camp yesterday and said he would use the "prestige and influence" of the commission to see that Moore gets a chance at Rocky.

Bolt Paces Open Field With First Round 67

San Francisco, June 17 (AP)—They've been saying that the lake course of the Olympic Country Club, scene of the 55th annual National Open, is tough. And only Tommy Bolt, with a sparkling three-under-par 67, found it otherwise yesterday as the field of 162 took off on the 72-hole route.

Bolt, swinging a putter so hot he used it only once on 12 of the tricky greens, took a three-stroke advantage into today's second round of play over the 6,700-yard par 33-35—70 layout which nestles between the Pacific Ocean and Lake Merced.

Runnerup was Walker Inman, Jr., little-known Augusta, Ga., pro, with an even par 70. Third, another strike off the pace was Jack Burke of Kiamesha Lake, N. Y., and fourth, with a two-over-par 72, came four-time titlist Ben Hogan.

IT WAS THE rough the boys complained about in practice and which the U. S. Golf Assn. ordered trimmed. But it still was the rough, narrowing the fairways and putting a premium on accurate drives—which was tripping them up yesterday.

The soaring scores were topped with a bulging 96 fired by, of all persons, home pro Johnny Battini.

Bill Meyers of Daytona Beach, Fla.; Mike Barbato, Baton Rouge, La., and James Milinari of San Francisco gave up in disgust along the way. That left only 159 still going for the gold which added up to $24,000 today as the result of a 20 per cent bonus announced by the USGA. The winning pro will pocket $6,000.

The feeling was that anything adding up to 154 would survive for tomorrow's 36-hole finals when the fields will be trimmed to the 50 low scores and ties.

Bolt turned the course in 35-32 for his 67, using only 24 putts in the process. His putter was hot as those of defending champion Ed Furgol and Hogan were cold. Both veterans needed 35 puts, Furgol winding up with a six-over-par 76.

PGA CHAMPION Chick Harbert, nursing a 77, spent as much time as almost anyone in the rough.

Knotted with 73s in the fifth spot where Mike Souchak, ex-Duke football player; Freed Hawkins of El Paso, Tex., and Babe Lichardus of Westfield, N. J., who made the tournament as an alternate.

Harvie Ward of San Francisco, Walker Cupper and ex-British Amateur champion, turned in a 74 along with Arthur Bell of San Francisco, Elmer Reed of Atlanta, Ga., Doug Ford of Kiamesha Lake, N. Y., and Celestino Tugot of the Philippine Islands.

Back still further with 76s were Dr. Cary Middlecoff, the Masters' champion; Julius Boros, Gene Littler, Al Besselink, Smiley Quick and Marty Furgo.

Sam Snead coined a 79 in his bid for the Open title which has eluded him his entire career.

Subway Grill, Rapp's, Skyline, Chez Emile Cop Softball Games

Home Run Spree Gives Grillmen 16-5 Victory

Subway Grill bounced back from a recent upset to rout Krovan, 16 to 5, with a rash of extra base hits yesterday.

Chez Emile whipped Gene's Bar and Grill, 9-5; Fuller Skyline won over Kaplan Bag, 10-4; and Rapp's Express beat Cherny's, 8-5.

TOM SPADA and Al Hunt scattered 10 Krovan safeties, while the Subways pounded Canavan, Knight and Savino for 19 assorted blows.

Less Barringer stroked four singles for the winners. Tommy Maines belted a triple and homer. Bob Schatzel homered and added two singles. F. Fede, F. Spada and Tom Spada also came up with a brace of safeties, Fede homering.

Matty Weishaupt stroked three singles for Krovan. Berardi rapped a single and homer and Krom and Canavan also came up with two hits.

JOE ENRIGHT pitched 4-hit ball and Chez Emile backed him with a 15-hit assault on Don Dyson as Chez Emile romped. Enright had only one bad inning—the sixth—when Gene's scored four runs but Chezzies were leading 9-1 at the time.

Fred Schryver belted a trio of singles for Chezzies, with H. Embree, B. Scheffel, George Magley, Joe McGrane and J. Gallagher hitting safely twice each. George Glaser's double was the only extra base blow of the game.

Eddie Low checked Kaplan Bag on seven hits, one a homer by T. Deland, while Fullers accumulated 16 off Danny Basch.

HUYLER VAN WAGENEN poled three singles and a triple. Howie Brooks connected for a single, double and triple and Butch Tomaseskie unloaded three singles for Skyline. Deland and Don Beesmer had two hits apiece for Kaplan.

Rapp's Express rallied for four runs in the sixth for an 8-5 decision over Cherny's. It was 4-4 at the time of the eruption.

BILL SINSABAUGH powered three singles and Charlie Farley and Bill Martini hit two apiece for Rapp's. A. Crookson poled a single and triple for Cherny's. G. Winters and Wallace stroked doubles off J. Massuccio, the winning pitcher.

Former Champs in Herdegen

DUBBY RAICHLE

GEORGE HUGHES

BILL VAN AKEN

These three topnotch area golfers are among the favorites in the Father Herdegen Memorial golf tournament this year. In usual order, Clarence Dubby Raichle, 1952 winner; George Hughes, two-time winner in 1951 and 1954 and Bill Van Aken, who won in 1953 at Twaalfskill. Hughes hold the tournament's 72-hole record of 286 set last year on four county courses.

American LL

Sprague Dodgers	4	0
Electrol Giants	2	1
Lions Club Yankees	1	3
Moose Red Sox	0	3

The defending champion Sprague Electric Dodgers of the American Little League keep that winning touch.

The Dodgers can win the close ones when they have to, or come up with a brilliant pitching performance when the opposition gets rugged.

LIKE YESTERDAY, when Ronnie Secreto had to unfurl a 3-hitter to check the Lions Club Yankees, 1 to 0. Secreto was excellent, issuing four passes and fanning 11. But Frank Fay of the Yankees was almost as good. Frank permitted only four hits, two of them coming in the fourth when the Dodgers scored the only run of the game. He struck out 8 batters.

Ronnie Thomas poled two singles and Gary Barnes and Wayne Elmendorf hit doubles for the Dodgers.

Joe Stopski, Walt Daw and Fay collected the Yankee safeties.

45 Players Set In County Golf

Forty five of Ulster county's best golfers tee off in quest of the Father Herdegen Memorial crown, symbolic of the county amateur title, in the fifth annual tournament that gets underway Saturday at 12 noon at the Woodstock Country Club.

Heading the brilliant field for the 54-hole medal marathon is two-time champion, George Hughes of Twaalfskill.

TWO OTHER former winners—Clarence "Dubby" Raichle of Twaalfskill and Bill Van Aken of the host club—will be seeking their second crowns.

The tournament switches to the Shawangunk club at Ellenville on Saturday, June 25, with the finals scheduled at Twaalfskill on Sunday, June 26.

Virtually all of the "name" players in the area and the current club champions are in the field. The list includes Bill Van Aken of Woodstock; Tim Bilyeu of Shawangunk, Bob Daley of Wiltwyck and Alvin Boice of Twaalfskill.

GENERALLY REGARDED as the "Ben Hogan" of Ulster county, Hughes is the man to beat, as always. In the past four tournaments he won twice and was runnerup in his two other starts.

But Hughes can expect strong opposition from old standbys like Van Aken, who might get a flying start on his home course; Alvin Boice, who will be seeking the only title to elude him in the area; Roy Vogt, Allen and Bill Waterous of Woodstock and Jim Oulton, Twaalfskill youngster whom many rate the "dark horse" of the tournament.

A newcomer to area golf, John T. Burych of the Hercules company, makes his debut with impressive credentials.

The low 21 players after 36 holes of medal play will qualify for the finals at Twaalfskill.

Helfand Wants Moore-Marciano

Summit, N. J., June 17 (AP)—If Archie Moore beats Bobo Olso soundly next Wednesday, he'll have a strong backer for a September shot at Rocky Marciano's heavyweight title in the person of Julius Helfand, chairman of the New York State Athletic Commission.

Helfand visited the light heavyweight champ's training camp yesterday and said he would use the "prestige and influence" of the commission to see that Moore gets a chance at Rocky.

Bolt Paces Open Field With First Round 67

San Francisco, June 17 (AP)—They've been saying that the lake course of the Olympic Country Club, scene of the 55th annual National Open, is tough. And only Tommy Bolt, with a sparkling three-under-par 67, found it otherwise yesterday as the field of 162 took off on the 72-hole route.

Bolt, swinging a putter so hot he used it only once on 12 of the tricky greens, took a three-stroke advantage into today's second round of play over the 6,700-yard par 33-35—70 layout which nestles between the Pacific Ocean and Lake Merced.

Runnerup was Walker Inman, Jr., little-known Augusta, Ga., pro, with an even par 70. Third, another strike off the pace was Jack Burke of Kiamesha Lake, N. Y., and fourth, with a two-over-par 72, came four-time titlist Ben Hogan.

IT WAS THE rough the boys complained about in practice and which the U. S. Golf Assn. ordered trimmed. But it still was the rough, narrowing the fairways and putting a premium on accurate drives—which was tripping them up yesterday.

The soaring scores were topped with a bulging 96 fired by, of all persons, home pro Johnny Battini.

Bill Meyers of Daytona Beach, Fla.; Mike Barbato, Baton Rouge, La., and James Milinari of San Francisco gave up in disgust along the way. That left only 159 still going for the gold which added up to $24,000 today as the result of a 20 per cent bonus announced by the USGA. The winning pro will pocket $6,000.

The feeling was that anything adding up to 154 would survive for tomorrow's 36-hole finals when the fields will be trimmed to the 50 low scores and ties.

Bolt turned the course in 35-32 for his 67, using only 24 putts in the process. His putter was hot as those of defending champion Ed Furgol and Hogan were cold. Both veterans needed 35 puts, Furgol winding up with a six-over-par 76.

PGA CHAMPION Chick Harbert, nursing a 77, spent as much time as almost anyone in the rough.

Knotted with 73s in the fifth spot where Mike Souchak, ex-Duke football player; Freed Hawkins of El Paso, Tex., and Babe Lichardus of Westfield, N. J., who made the tournament as an alternate.

Harvie Ward of San Francisco, Walker Cupper and ex-British Amateur champion, turned in a 74 along with Arthur Bell of San Francisco, Elmer Reed of Atlanta, Ga., Doug Ford of Kiamesha Lake, N. Y., and Celestino Tugot of the Philippine Islands.

Back still further with 76s were Dr. Cary Middlecoff, the Masters' champion; Julius Boros, Gene Littler, Al Besselink, Smiley Quick and Marty Furgo.

Sam Snead coined a 79 in his bid for the Open title which has eluded him his entire career.

The SCOREBOARD

By ED WILKS, The Associated Press

Some of the old pappy guys got together and really showed the crewcut class in major league baseball a few tricks of the trade yesterday.

There was Murry Dickson (38), Virgil Trucks (36) and Tommy Byrne (35) to name a few. Those figures aren't uniform numbers, incidentally. That's the number of years the gents have tucked away.

Byrne did the real bang up job, stopping the still-wet-behind-the-ears Detroit Tigers 3-2 on four hits and becoming the first pitcher to go all the way for the American League leading New York Yankees since June 1.

TRUCKS kept the Chicago White Sox within two games of the Yanks with his second straight shutout and fifth straight victory, a six-hit job that beat Baltimore 8-0.

Dickson, who has led or tied for the most-games-lost title in the National League for the past three seasons, squared his mark at 4-4 by whittling down the Milwaukee Braves on four hits as the Philadelphia Phillies won 3-0.

At the same time, Warren Hacker, a young sprat of 30, cut off a Chicago Cub losing streak at three games by stopping the New York Giants 2-1 on five hits. That pulled the Bruins to within 10½ games of National League leading Brooklyn as Cincinnati topped the Dodgers a second straight time, 6-5, in 10 innings.

ST. LOUIS made it two straight by beating Pittsburgh 5-0.

The other American League games wound up with Cleveland holding off Washington 8-5 and Boston overhauling Kansas City in the ninth 7-6.

Byrne, a sometimes erratic southpaw, gave just one earned run, walked five and fanned nine. But he didn't get his fourth victory until the Yanks caught up with Detroit rookie Frank Lary for three runs in the ninth. Yogi Berra's one-on homer tied it and Elston Howard's pinch single scored the clincher.

Brooklyn's 15th defeat came on Ted Kluszewski's two-out homer —his second of the game—off reliefer Jim Hughes, who had retired 14 in a row. The pair tied Big Klu with Dodger Duke Snider for the majors' homer lead at 20. Buster Freeman won it in relief after Brooklyn tied it with two out in the seventh.

Hacker had all he needed when the Cubs scored a pair off young Ramon Nonzant in the third as Frankie Baumholtz followed a walk with a triple and rode in on Randy Jackson's single. It was Hacker's seventh success and put the Cubs 2½ games up on the third place Giants again.

Ted Williams Booming at .415

Boston, June 17 (AP)—Ted Williams, the irrepressible kid despite his 36 years, has fired the Boston Red Sox into the hottest American League club with a .415 batting average—and plenty of hustle.

Williams got three of the eight hits off Kansas City pitchers yesterday including a monumental 450-foot home run in Boston's 7-6 come-from-behind victory. It was the eighth win in nine games for the Sox.

Yesterday's Stars

Pitching—Tommy Byrne, Yankees, gave the New York staff its first complete game since June 1, while fanning nine and allowing only four hits to beat Detroit 3-2.

Hitting—Ted Kluszewski, Redlegs, powered his third hit and second homer of the game with two out in the 10th to beat Brooklyn 6-5 and share the majors' home run lead with Duke Snider at 20.

Williamsport Leads Eastern

(By The Associated Press)

Two tight camps split the Eastern League today and it's a long haul from one to the other.

Last night's action left a 2½-game spread among the top five clubs. Another 7½ length back come the three also-rans, bunched a game apart.

Front-running Williamsport, although losing 5-1 to host Reading and Gene Law, stayed 1½ games atop the field. The Indians pushed into the second spot over Binghamton, which dropped a home doubleheader to the resurging Albany Senators, 7-5 and 10-5.

FIFTH-PLACE Allentown dropped Elmira to the brink of the cellar, whacking the visiting Pioneers twice, 11-6 and 9-7. Elmira is only four percentage points ahead of Albany, which has won six of its last seven.

Righthander Henry Mason hurled Schenectady into a third-place tie with the triplets, blanking Wilkes-Barre, 4-0 on two hits.

The Barons, in sixth place 7½ back of Allentown, lead Elmira and Albany by a game.

Basilio Admits Attractive Bid

Syracuse, June 17 (AP)—Carmen Basilio's managers say the new welterweight champion has a "very attractive offer" to meet Roman Tiscareno in a non-title fight in Los Angeles.

Joe Netro and Johnny De John said yesterday that they would make no decision until after they talked next week with James D. Norris, president of the International Boxing Club, about Basilio's future plans.

THEY SAID that Tom Stanley, a west coast promoter, had offered Basilio a guarantee of $15,000 or 40 per cent of the gate at Wrigley Field. No dates were mentioned.

Tiscareno, a Mexican welterweight who does most of his fighting on the coast, has beaten Paolo Melis, former Italian welter champ. But Gerry Dreyer, British Empire 147-pound titlist, stopped Tiscareno in one round.

Basilio won his crown a week ago when he stopped Tony De Marco of Boston in 12 rounds.

Patty Berg Leads At Grossinger's

Grossinger, June 17 (AP)—Patty Berg, the St. Andrews, Ill., veteran of 20 years of golf competition, held a commanding lead today after three rounds of the $8,700 round-robin tournament.

Miss Berg, who won the event last year, had a plus 47 in the competition which calls for each of the 16 players to meet each other during the course of five rounds. She had a 54-hole medal score of 219 after matching par with a 72 yesterday.

LOUISE SUGGS, Sea Island, Ga., leading money winner of the year among the touring women, was second with 29 on a medal score of 224.

Others still on the plus side were Pat O'Sullivan, Orange, Conn., 21; Marlene Bauer, Sarasota, Fla., 20; Jackie Pung, Honolulu, 20; Fay Crocker, Uruguay, 11; Betty Jameson, San Antonio, Tex., 9 and Betsy Rawls, Spartanburg, S. C., 9.

Carol Bowman of Oakland, Calif., equalled the women's course record with a 71 yesterday but still was on the minus side in the standings with minus 2.

Rotary Shades Police, 2 - 1 In Fraternal Practice Game

Rotary shaded the Police, 2 to 1, in a Fraternal Youth League practice game that was played as a preliminary to the King and His Court exhibition Wednesday at Dietz Stadium.

The brilliant pitching duel between Glenn Newell of the Police and Terry Corkery of the Rotary was decided on a squeeze bunt engineered by Don Juhl.

BOTH PITCHERS permitted only three hits, with Newell fanning 13 and issuing no walks. Corkery struck out three and was in trouble only in the third when he walked the first three batters but checked the Police without a run.

Lee Kias, Rotary left fielder and cleanup hitter, homered and doubled for Rotary. Corkery had the other hit. Darrell Myers, Frank Weishaupt, and Bob Pratt hit safely for the Police.

Jamie Captures American Derby

Westbury, June 17 (AP)—Jamie, unable to win in six previous starts this year, was $12,500 richer today after beating nine other top trotters in the $25,000 American trotting championship at Roosevelt Raceway.

The 5-year-old from the Brightside Farms of Springfield, Ill., came from sixth place in the stretch last night to win the mile and one-quarter event in 2:33 3/5. The time was three-fifths of a second slower than the track record established in the event two years ago by Florican.

Favored Faber Hanover was three-quarters of a length back in second place with Royal Pastime trailing by another length and a half for third money.

Jamie paid $31.20 for $2 in running his total earnings to $59,894.

Soap Box Derby Off

Augusta, Ga., June 17 (AP)—The Augusta Soap Box Derby has been canceled this year because a large number of races were withdrawn after the entry of two Negro contestants. Sponsors said they called off the July 13 derby "with great reluctance" and expressed regret at disappointing youngsters who had started building their racers. "However, a multiplicity of problems, including the withdrawal from the event of a large percentage of the entries, led to the belief that a successful derby could not be held this year," the sponsors said in a statement yesterday.

Jones 12-5 Pick Over Durando

New York, June 17 (AP)—Ralph (Tiger) Jones of Yonkers, and Ernie Durando of Bayonne, N. J. top the final Friday night show of the Madison Square Garden season tonight with Jones a 12 5 favorite.

The network radio and television (NBC) fans who tune in for the 10-round match at 9 p. m. (EST) will recognize Jones readily for he's a once-a-month attraction on the magic lantern. Durando, once a regular, hasn't been seen since he lost to Kid Gavilan Feb. 4.

JONES AND Durando have one thing in common—both are inconsistent. Jones lost five in a row last year after scoring some impressive victories. Durando either knocks out an opponent or flounders. He was stopped twice last year by Billy Kilgore and Peter Mueller but won over men like Ted Olla, Bobby Dykes and Jesse Turner.

In 51 pro fights since 1950, the 27-year-old Jones has compiled a 24-14-3 record. Durando 29, has a 39-19-4 record for 62 starts. But Durando has knocked out 28 while Jones has stopped only nine men.

THE SCOREBOARD

By ED WILKS, The Associated Press

Some of the old pappy guys got together and really showed the crewcut class in major league baseball a few tricks of the trade yesterday.

There was Murry Dickson (38), Virgil Trucks (36) and Tommy Byrne (35) to name a few. Those figures aren't uniform numbers, incidentally. That's the number of years the gents have tucked away.

Byrne did the real bang up job, stopping the still-wet-behind-the-ears Detroit Tigers 3-2 on four hits and becoming the first pitcher to go all the way for the American League leading New York Yankees since June 1.

TRUCKS kept the Chicago White Sox within two games of the Yanks with his second straight shutout and fifth straight victory, a six-hit job that beat Baltimore 8-0.

Dickson, who has led or tied for the most-games-lost title in the National League for the past three seasons, squared his mark at 4-4 by whittling down the Milwaukee Braves on four hits as the Philadelphia Phillies won 3-0.

At the same time, Warren Hacker, a young sprat of 30, cut off a Chicago Cub losing streak at three games by stopping the New York Giants 2-1 on five hits. That pulled the Bruins to within 10½ games of National League leading Brooklyn as Cincinnati topped the Dodgers a second straight time, 6-5, in 10 innings.

ST. LOUIS made it two straight by beating Pittsburgh 5-0.

The other American League games wound up with Cleveland holding off Washington 8-5 and Boston overhauling Kansas City in the ninth 7-6.

Byrne, a sometimes erratic southpaw, gave just one earned run, walked five and fanned nine. But he didn't get his fourth victory until the Yanks caught up with Detroit rookie Frank Lary for three runs in the ninth. Yogi Berra's one-on homer tied it and Elston Howard's pinch single scored the clincher.

Brooklyn's 15th defeat came on Ted Kluszewski's two-out homer—his second of the game—off reliefer Jim Hughes, who had retired 14 in a row. The pair tied Big Klu with Dodger Duke Snider for the majors' homer lead at 20. Buster Freeman won it in relief after Brooklyn tied it with two out in the seventh.

Hacker had all he needed when the Cubs scored a pair off young Ramon Nonzant in the third as Frankie Baumholtz followed a walk with a triple and rode in on Randy Jackson's single. It was Hacker's seventh success and put the Cubs 2½ games up on the third place Giants again.

Ted Williams Booming at .415

Boston, June 17 (AP)—Ted Williams, the irrepressible kid despite his 36 years, has fired the Boston Red Sox into the hottest American League club with a .415 batting average—and plenty of hustle.

Williams got three of the eight hits off Kansas City pitchers yesterday including a monumental 450-foot home run in Boston's 7-6 come-from-behind victory. It was the eighth win in nine games for the Sox.

Yesterday's Stars

Pitching—Tommy Byrne, Yankees, gave the New York staff its first complete game since June 1, while fanning nine and allowing only four hits to beat Detroit 3-2.

Hitting—Ted Kluszewski, Redlegs, powered his third hit and second homer of the game with two out in the 10th to beat Brooklyn 6-5 and share the majors' home run lead with Duke Snider at 20.

Williamsport Leads Eastern

(By The Associated Press)

Two tight camps split the Eastern League today and it's a long haul from one to the other.

Last night's action left a 2½-game spread among the top five clubs. Another 7½ length back come the three also-rans, bunched a game apart.

Front-running Williamsport, although losing 5-1 to host Reading and Gene Law, stayed 1½ games atop the field. The Indans pushed into the second spot over Binghamton, which dropped a home doubleheader to the resurging Albany Senators, 7-5 and 10-5.

FIFTH-PLACE Allentown dropped Elmira to the brink of the cellar, whacking the visiting Pioneers twice, 11-6 and 9-7. Elmira is only four percentage points ahead of Albany, which has won six of its last seven.

Righthander Henry Mason hurled Schenectady into a third-place tie with the triplets, blanking Wilkes-Barre, 4-0 on two hits.

The Barons, in sixth place 7½ back of Allentown, lead Elmira and Albany by a game.

Basilio Admits Attractive Bid

Syracuse, June 17 (AP)—Carmen Basilio's managers say the new welterweight champion has a "very attractive offer" to meet Roman Tiscareno in a non-title fight in Los Angeles.

Joe Netro and Johnny De John said yesterday that they would make no decision until after they talked next week with James D. Norris, president of the International Boxing Club, about Basilio's future plans.

THEY SAID that Tom Stanley, a west coast promoter, had offered Basilio a guarantee of $15,000 or 40 per cent of the gate at Wrigley Field. No dates were mentioned.

Tiscareno, a Mexican welterweight who does most of his fighting on the coast, has beaten Paolo Melis, former Italian welter champ. But Gerry Dreyer, British Empire 147-pound titlist, stopped Tiscareno in one round.

Basilio won his crown a week ago when he stopped Tony De Marco of Boston in 12 rounds.

Patty Berg Leads At Grossinger's

Grossinger, June 17 (AP)—Patty Berg, the St. Andrews, Ill., veteran of 20 years of golf competition, held a commanding lead today after three rounds of the $8,700 round-robin tournament.

Miss Berg, who won the event last year, had a plus 47 in the competition which calls for each of the 16 players to meet each other during the course of five rounds. She had a 54-hole medal score of 219 after matching par with a 72 yesterday.

LOUISE SUGGS, Sea Island, Ga., leading money winner of the year among the touring women, was second with 29 on a medal score of 224.

Others still on the plus side were Pat O'Sullivan, Orange, Conn., 21; Marlene Bauer, Sarasota, Fla., 20; Jackie Pung, Honolulu, 20; Fay Crocker, Uruguay, 11; Betty Jameson, San Antonio, Tex., 9 and Betsy Rawls, Spartanburg, S. C., 9.

Carol Bowman of Oakland, Calif., equalled the women's course record with a 71 yesterday but still was on the minus side in the standings with minus 2.

Rotary shaded the Police, 2 to 1, in a Fraternal Youth League practice game that was played as a preliminary to the King and His Court exhibition Wednesday at Dietz Stadium.

The brilliant pitching duel between Glenn Newell of the Police and Terry Corkery of the Rotary was decided on a squeeze bunt engineered by Don Juhl.

BOTH PITCHERS permitted only three hits, with Newell fanning 13 and issuing no walks. Corkery struck out three and was in trouble only in the third when he walked the first three batters but checked the Police without a run.

Lee Kias, Rotary left fielder and cleanup hitter, homered and doubled for Rotary. Corkery had the other hit. Darrell Myers, Frank Weishaupt, and Bob Pratt hit safely for the Police.

Kansas City Signs Gloversville Youth

Kansas City, June 17 (AP)—Joseph Kobuskie, a 21-year-old shortstop from Gloversville, has signed a baseball contract with the Kansas City Athletics of the American League.

Kobuskie played with Springfield, Mass., College in the NCAA tournament at Omaha, Neb., this week. He was assigned to the A's Savannah, Ga., farm club in the Class A South Atlantic League. Kobuskie is a 5 foot 9, 160-pounder who bats and throws righthanded.

Indians Trip Yanks In EL, 15-12

Indians and Yankees piled up runs like telephone numbers with the Tribe finally winning yesterday's Esopus Legion Little League contest, 15-12.

Each team collected 11 hits off two opposing pitchers. John Reinhardt of the Yankees flourished with a single, double and homer.

CURTIS KING powered a single and triple, Bob Robinson and Pete Van Loan two hits each for Yankees. Dennis Schetting, Bob Miller hit safely three times each for the Tribe. Billy Boss and Tom Auringer connected twice.

Jamie Captures American Derby

Westbury, June 17 (AP)—Jamie, unable to win in six previous starts this year, was $12,500 richer today after beating nine other top trotters in the $25,000 American trotting championship at Roosevelt Raceway.

The 5-year-old from the Brightside Farms of Springfield, Ill., came from sixth place in the stretch last night to win the mile and one-quarter event in 2:33 3/5. The time was three-fifths of a second slower than the track record established in the event two years ago by Florican.

Favored Faber Hanover was three-quarters of a length back in second place with Royal Pastime trailing by another length and a half for third money.

Jamie paid $31.20 for $2 in running his total earnings to $59,894.

Soap Box Derby Off

Augusta, Ga., June 17 (AP)—The Augusta Soap Box Derby has been canceled this year because a large number of races were withdrawn after the entry of two Negro contestants. Sponsors said they called off the July 13 derby "with great reluctance" and expressed regret at disappointing youngsters who had started building their racers. "However, a multiplicity of problems, including the withdrawal from the event of a large percentage of the entries, led to the belief that a successful derby could not be held this year," the sponsors said in a statement yesterday.

Jones 12-5 Pick Over Durando

New York, June 17 (AP)—Ralph (Tiger) Jones of Yonkers, and Ernie Durando of Bayonne, N. J. top the final Friday night show of the Madison Square Garden season tonight with Jones a 12 5 favorite.

The network radio and television (NBC) fans who tune in for the 10-round match at 9 p. m. (EST) will recognize Jones readily for he's a once-a-month attraction on the magic lantern. Durando, once a regular, hasn't been seen since he lost to Kid Gavilan Feb. 4.

JONES AND Durando have one thing in common—both are inconsistent. Jones lost five in a row last year after scoring some impressive victories. Durando either knocks out an opponent or flounders. He was stopped twice last year by Billy Kilgore and Peter Mueller but won over men like Ted Olla, Bobby Dykes and Jesse Turner.

In 51 pro fights since 1950, the 27-year-old Jones has compiled a 24-14-3 record, Durando 29, has a 39-19-4 record for 62 starts. But Durando has knocked out 28 while Jones has stopped only nine men.

Glasco Yankees Check Dodger Streak, 4 to 2

"No-Hit" Johnny Nolan permitted only two hits as the Yankees stopped the undefeated Dodgers, 4-2, in the special polio game of the Glasco Little League.

The victory moved the Yankees to within a game of the league leaders. The Yankee ace also had another big day at the plate with three hits in three trips as he earned his third straight pitching victory.

BARBER and Celuch, another no-hit flinger, toiled for the Dodgers. Spada and Ed Sangaline hit safely twice each for the Yankees.

Jacobs Paces International

(By The Associated Press)

Forrest (Spook) Jacobs, Columbus infielder, is sitting comfortably atop the International League today with a .353 batting average.

Since being sent down from the parent Kansas City Athletics in May, second-baseman Jacobs has made himself right at home in the lead-off spot for Columbus. Along with rightfielder Bill Stewart, who is moving at a .300 clip, he has provided most of the punch in the Jet line-up.

IT WAS JACOBS, Frank Verdi, Dick Kryhoski and Stewart who set off the first of the two big innings for the Jets last night as they downed the Syracuse Chiefs 7-3.

Kryhoski, a new arrival, got three hits to help righthander Bob Trice to win his first start since June 5. Trice needed help from Charley Haag in the ninth after being tagged for a two-run homer by Ted Kazanski.

All the other clubs had an open date.

Innocent Plea Is Given in Alleged Unlawful Entry

Edward Nelson Houghtaling, who with Robert Milton Peterson, was accused by the grand jury of burglary, third degree, and unlawful entry alleged to have been committed on March 10, 1955, when the George Morehouse property was entered, was arraigned in County Court Thursday. A plea of innocent was entered by Houghtaling, who was represented by Robert Ortale.

Assistant District Attorney John J. Schick moved several other cases over to next week and sentence in the Robert G. Roberts, Jr., case was postponed until Monday at 2 p. m.

Court recessed until 2 p. m. Monday.

Apartment Entered

Police were notified at 5:48 yesterday that the apartment of Mary DiRico and Peggy Wilczynski, 133 St. James street, had been entered and ransacked. Officers Benjamin Osterhoudt and Julius Glassman investigated, and said the building was entered through a rear basement entrance between 1 p. m., and 5:40 p. m. Nothing was reported missing, the report said.

Glasco Yankees Check Dodger Streak, 4 to 2

"No-Hit" Johnny Nolan permitted only two hits as the Yankees stopped the undefeated Dodgers, 4-2, in the special polio game of the Glasco Little League.

The victory moved the Yankees to within a game of the league leaders. The Yankee ace also had another big day at the plate with three hits in three trips as he earned his third straight pitching victory.

BARBER and Celuch, another no-hit flinger, toiled for the Dodgers. Spada and Ed Sangaline hit safely twice each for the Yankees.

Jacobs Paces International

(By The Associated Press

Forrest (Spook) Jacobs, Columbus infielder, is sitting comfortably atop the International League today with a .353 batting average.

Since being sent down from the parent Kansas City Athletics in May, second-baseman Jacobs has made himself right at home in the lead-off spot for Columbus. Along with rightfielder Bill Stewart, who is moving at a .300 clip, he has provided most of the punch in the Jet line-up.

IT WAS JACOBS, Frank Verdi, Dick Kryhoski and Stewart who set off the first of the two big innings for the Jets last night as they downed the Syracuse Chiefs 7-3.

Kryhoski, a new arrival, got three hits to help righthander Bob Trice to win his first start since June 5. Trice needed help from Charley Haag in the ninth after being tagged for a two-run homer by Ted Kazanski.

All the other clubs had an open date.

Innocent Plea Is Given in Alleged Unlawful Entry

Edward Nelson Houghtaling, who with Robert Milton Peterson, was accused by the grand jury of burglary, third degree, and unlawful entry alleged to have been committed on March 10, 1955, when the George Morehouse property was entered, was arraigned in County Court Thursday. A plea of innocent was entered by Houghtaling, who was represented by Robert Ortale.

Assistant District Attorney John J. Schick moved several other cases over to next week and sentence in the Robert G. Roberts, Jr., case was postponed until Monday at 2 p. m.

Court recessed until 2 p. m. Monday.

Apartment Entered

Police were notified at 5:48 yesterday that the apartment of Mary DiRico and Peggy Wilczynski, 133 St. James street, had been entered and ransacked. Officers Benjamin Osterhoudt and Julius Glassman investigated, and said the building was entered through a rear basement entrance between 1 p. m., and 5:40 p. m. Reds Score 'Alert'

London, June 17 (AP)—Moscow radio today called America's "Operation Alert" an effort by the government to intimidate the public into more expenditures for armaments. The broadcast declared "war hysteria is continuing in the U. S. A." and added: "This large scale simulation with all its noise and clatter, is evidently calculated to intimidate the population and to compel them to believe in the inevitability of atomic war and to become reconciled to the colossal expenditure on armaments."

New York, June 16 (Special) —Employes of Mohican Stores, Inc., 57-59 John street, Kingston, have voted to be represented in collective bargaining by Local 474 of the Amalgamated Meatcutters and Food Employes Union, AFL, it was announced today by the National Labor Relations Board.

Of the 13 retail clerks and meatcutters eligible to vote, 6 cast ballots for the union while one voted against it. One additional vote was declared void.

In order to be certified by the NLRB as bargaining agent, a union must receive a majority of the votes cast in a union representation election.

Three Face Homicide

New York, June 17 (AP)—Three teen-agers were charged with homicide early today in the shooting last night of a member of a rival gang—as he walked along a Brooklyn street. The shooting victim, Fred Warren, 16, had just parted from a friend, Charles Faison, 16, when several shots rang out and fatally wounded Warren, member of the Tiny Tims gang, police said. The gunfire apparently came from a rooftop. Faison told police a youth gang called the Chaplains had been "after" him and tried to shoot him down last Tuesday. Faison said he belonged to no gang and knew no reason for the Chaplain's enmity.

Motorist Is Killed

Caledonia, N. Y., June 17 (AP) —Harvey R. Beachner, 37, of Spenceport, N. Y., was killed today when the auto he was driving hurdled a fence, struck a pole and exploded in Route 5-20 near this Livingston county village.

The victim, Mrs. Juanita Shepard, a Negro, had been shot in the head. Her neck and feet were weighted with concrete slabs.

Winnie Declines Bid

London, June 17 (AP) — Sir Winston Churchill has declined an invitation to attend the ceremonies at San Francisco next week commemorating the 10th anniversary of the United Nations, his private secretary disclosed today.
